Emergency Protocol

The Board recognizes that emergencies may arise that justify the use of emergency response to life threatening asthma and systematic allergic reactions (“anaphylaxis”). To this end the Board adopts the Emergency Response to Life Threatening Asthma or Systemic Allergic Reactions Protocol (“Emergency Protocol”) as required by state regulation and directs the administration to establish rules and procedures to implement the protocol.

## Emergency Protocol

The administration adopts the Emergency Protocol set forth in Nebraska Department of Regulation Rule 59, Appendix A, as such protocol may be amended from time to time.

The Emergency Protocol shall be implemented, and the equipment and medication necessary to implement the Emergency Protocol shall be maintained, at each school building while school is in session. The administration shall designate employees to be responsible for implementing the Emergency Protocol and will provide training to such designated employees.

For purposes of the Emergency Protocol, the phrase “while school is in session” is defined as the core instructional school day. The “core instructional school day” is defined as that portion of each day school is in session during which teachers are on duty to provide and students are scheduled to receive instruction in the School District’s curriculum, generally beginning at 8:00 a.m. and ending at 3:30 p.m. The Emergency Protocol shall not be required to be implemented other than in the school buildings while school is in session, and as such is not required to be implemented at extracurricular activities, on school buses, or during school field trips. Implementation of the Emergency Protocol at such non-mandatory times or places shall be made at the discretion of the administration and shall be subject to the availability of the employees designated or trained in implementation of the Emergency Protocol and the availability of the necessary equipment and medication at such times or places.
