The standards within this document were developed by a team of Nebraska educators. These educators represent the diversity of students served by Nebraska's K-12 schools, a variety of content and grade-level expertise, and geographic locations across the state. In addition, a panel of subject matter experts reviewed and provided guidance on the recommended revisions. The standards were developed during the 2020-2021 academic year and approved by the Nebraska State Board of Education in September 2021. The Nebraska Department of Education would like to express warm gratitude to these educators for their knowledge, expertise, and dedication to Nebraska's K-12 students.

Key Instructional Shifts for English Language Arts	157

Introduction

The ability to use language for the pursuit of knowledge, for purposeful expression, and for active participation in civic life requires academic content standards that are clearly defined and increasingly rigorous across grade levels. The Nebraska English Language Arts standards encompass a wide range of essential skills in the areas of reading, writing, speaking, and listening. The standards, both individually and as an integrated whole, describe not only expectations for college, career, and civic readiness, but the 21st century literacies necessary for critical and innovative thinking and problem solving. The progression of skills within each strand are research and evidence-based and designed to prepare Nebraska's students for post-secondary and workforce demands.

Content Area Standards Overview

Nebraska Revised Statute 79-760.01 requires the State Board of Education to adopt measurable academic content standards for the areas of reading, writing, mathematics, science, and social studies. Standards describe grade-level expectations for given content areas and provide a framework upon which Nebraska districts develop, establish, and implement curriculum. For effective teaching and learning to occur, the content area standards should drive local decisions related to instructional materials, resources, and interim, formative, and summative assessments.

The Nebraska Department of Education has identified quality criteria in the development of content area standards. These criteria ensure that standards are grounded in a strong research base of human cognition, motivation, and teaching and learning and describe essential knowledge and skills for college, career, and civic readiness. The English Language Arts standards, written by teams of Nebraska educators and reviewed by literacy experts, were developed with the following of indicators of quality:

Measurable. Standards provide benchmarks against which student progress toward learning goals can be measured.

Appropriately challenging. Standards must build in complexity so that by the end of grade 12, students are prepared for postsecondary education and the workforce.

Connected. Student learning is most effective when it connects knowledge and skills to related topics and real-world applications.

Clearly worded. Content area standards must effectively communicate what students should know and be able to do.

Scaffolded. Indicators in the Nebraska content area standards scaffold student learning by sequencing connected knowledge and skills across grades so that students build and deepen understanding and ability over time.

Specific. Specificity assures that the language used in standards and indicators is sufficiently detailed to be accurately interpreted by educators.

English Language Arts Standards Design

Nebraska's English Language Arts Standards reflect the tiered structure common across all Nebraska content area standards. *Grade-level standards* include broad, overarching content-based statements that describe the basic cognitive or affective expectations of student learning. They also reflect, across all grade levels, the long-term goals for learning associated with college- and career-readiness. *Indicators* further describe what students must know and be able to do to meet the standard as well as provide guidance related to classroom instruction. In addition to standards and indicators, some of the Nebraska Standards for English Language Arts provide examples. The "e.g." statements, where appropriate, provide guidance relative to topics that may be included in a locally determined curriculum.

Nebraska's standards are organized with three levels of specificity:

- **K-12 Comprehensive Statements**—Identify broad, general statements that are not grade-level specific and cover big ideas in the English Language Arts (Foundations of Reading, Reading Prose and Poetry, Reading Informational Text, Vocabulary, Writing, and Speaking and Listening).
- **Grade-Level Expectations**—Statements that identify what students should know and be able to do by the end of each identified grade/band. These statements are found within the categories of each strand, for example, Reading Prose and Poetry and Reading Informational Text strands are organized into four categories: *Central Ideas and Details*, *Author's Craft*, *Knowledge and Ideas*, and *Range of Reading and Level of Text Complexity*. Each of these categories includes a statement that describes the expectations for proficiency and remain consistent through grade levels.
- **Curricular Indicators**—Specific information to distinguish expectations between grade levels. They are considered an integral part of the standard to be taught.

Coding

The standards are organized using a coding system that includes the content area, grade level, an abbreviation for the strand, the category within the strand, and the number within the strand. Lowercase letters represent indicators for some of the standards. *Note—not all standards include indicators.*

Spiraled, Vertical Progressions. The revised 2021 Nebraska English Language Arts Standards are formatted to support educators in both grade-level and vertical instructional planning. In addition to organization by grade level, the standards and indicators are formatted into spiraled, vertical articulations. This design demonstrates the interrelated nature of skills in the English Language Arts and their progression through the grade levels. The purpose of presenting the standards into vertical charts is to provide educators with a practical tool for the development of a locally-determined, standards-aligned curriculum.

For each standard in the areas of Foundations of Reading, Reading Prose and Poetry, Reading Informational Text, Writing*, Vocabulary, and Speaking and Listening, the standards and indicators are listed in a table format from the 11-12 grade band and ending at Kindergarten.

*Foundations of Writing standards and indicators are not charted.

Text at the Center

The graphic below illustrates an integrated model of literacy. Although the standards are organized into the essential components of Foundations of Reading, Reading Comprehension, Writing, Vocabulary, and Speaking and Listening for conceptual clarity, the strands are closely interrelated. For example, students should engage in meaningful writing tasks in response to the complex texts they are reading. Likewise, many of the skills associated with research are applicable to both writing and speaking tasks. The hallmark of effective ELA instruction in the English Language Arts is to demonstrate this interrelatedness through thoughtful planning in daily lessons and in the scope and sequence of knowledge and skills over the course of a year.

The 2021 revised College and Career Ready Standards for English Language Arts illustrate a text-centered approach to instruction. All students become proficient through deliberate practice. Practice means that students engage in an abundance of reading during the literacy block, both on- and off-grade-level, combined with thoughtful instruction so that all students have access to grade-level, complex texts. Students should have ample opportunity to express their understanding of meaning through discussion and writing. High-quality, grade-level complex texts can also provide the basis for instruction in other domains such as vocabulary acquisition and grammar, usage, and mechanics skills.

Students should spend significant time actively reading content-rich, complex text. Close reading of complex text is concentrated, demanding work that helps students discover how to learn from reading and grow their knowledge, vocabulary, and understanding of syntax.

Students should engage in a volume of reading to build knowledge and be exposed to academic language in all content areas. That volume of reading needs to be at a range of complexity levels so that every student can eventually read independently and proficiently. Much of this volume should be with information-rich text, either full-length books or conceptually connected shorter texts (groups of texts that cohere together to create a picture of a topic). A text-centered approach provides rich ELA/literacy classroom experiences and builds confident, joyful readers.

Why text complexity matters. Nearly half of American students graduating from high school will require some level of remediation to successfully read and understand the texts they will encounter as they enter college or the workforce. By the time many students complete their K-12 education, they are not able to meet the reading requirements they will face after graduation. An extensive body of research has emerged to explore the role of text complexity as it relates to students' ability to independently and proficiently comprehend the kinds of texts required in postsecondary work or their chosen career fields. A 2006 ACT study *Reading Between the Lines* examined student performance on reading comprehension measures to understand why some students performed below benchmark. The report indicated that the skills differentiating students who met the benchmark for reading proficiency from those who did not was their ability to answer correctly questions about more complex text.

The role of standards. The revised standards emphasize the range and complexity of texts that move students to proficiency as they progress through the grades. Below is the 3-part model for measuring the complexity of texts.

Qualitative measures. These include dimensions of text such as its purpose, levels of meaning, structure, conventions of language, and the knowledge demands they place upon the reader.

Quantitative measures. These measures refer to aspects of text complexity that can be objectively measured, for example, word length and frequency, sentence length, and text cohesion.

Reader and Task considerations. While quantitative and qualitative elements of complexity focus on the text itself, the *Reader and Task* dimension considers individual readers and variables such as their motivation, background knowledge, and the purpose and difficulty of the task associated with a given text. Assessments in this dimension rely on professional judgment and expertise of classroom teachers as they consider their students and the subject matter at hand.

Lexile ranges. Measures of text complexity must be aligned with college and career readiness expectations for all students. Qualitative scales of text complexity should be anchored at one end by descriptions of texts representative of those required in typical first-year, credit-bearing college courses and in workforce training programs. Similarly, quantitative measures should identify the college- and career-ready reading level as one endpoint of the scale. *Please see Appendix A for associated Lexile ranges by grade band.*

Distribution of literary and informational text types. The 2009 reading framework for the National Assessment of Educational Progress (NAEP) requires a high and increasing proportion of informational text on its assessments as students advance through the grades. The revised standards for English Language Arts are aligned to this framework so that all students are equipped to meet the text complexity demands of college and career readiness.

The Framework recognizes these modes as mutually reinforcing writing capacities—writing to persuade, to explain, and to convey real or imagined experiences. A body of evidence related to the demands of college and career readiness requires shifting emphasis so that in grades 9-12, the overwhelming focus of writing is on arguments and informative/explanatory text types.

Shared responsibility for literacy development. ELA teachers have a unique and specialized role in developing students' literacy skills, including systematic instruction of the foundations of reading and writing. But the comprehensive nature of the standards—reading, writing, language development, vocabulary acquisition, speaking and listening—and their applicability to student success in other content areas, requires that they be a shared responsibility within the school. An interdisciplinary approach to literacy assures students receive explicit instruction in reading and writing with a wide range of discipline-specific texts and tasks.

The Nebraska Instructional Materials Collaborative

Every Nebraska student deserves the opportunity to learn from high-quality, standards-aligned instructional materials to prepare for success in college, career, and civic life. While the revised standards lay out a roadmap for the acquisition of 21st century literacy skills, high-quality instructional materials, along with a well-crafted, locally determined curriculum, are essential to assuring students meet grade-level benchmarks.

The Nebraska Instructional Materials Collaborative promotes and advances equity by providing tools and resources so that all Nebraska students have access to high-quality materials. This includes learning the content outlined in Nebraska's college- and career-ready standards but also includes opportunities for students to discover and explore their passions within the context of postsecondary interests. Research demonstrates that English language learners, students with disabilities, low-income, and students of color are less likely to have

access to high quality content or textbooks in the classroom. This inequity, in part, accounts for the significant achievement gap between these students and their peers. The NIMC is committed to help address this gap.

Developing a vision. As districts consider instructional materials, a key first step is establishing a district-wide vision for excellent literacy instruction in which all students have access to grade-appropriate assignments, strong instruction, deep engagement, and teachers with high expectations.

The implementation of high-quality instructional materials is a critical to assuring students have access to the grade-level texts, tasks, and instruction that will prepare them for future success. The Nebraska Instructional Materials Collaborative provides reviews of ELA materials based upon:

- the text quality and complexity and their alignment to standards with tasks grounded in evidence;
- the knowledge-building of texts, vocabulary, and tasks;
- and instructional supports and usability measures.

In addition to review tools, the NIMC provides an abundance of resources such as subject-specific guidance for navigating the selection and implementation process, supporting research, professional development resources, communication tools, archived webinars, upcoming events, FAQs, and a statewide map of HQIMs in use by Nebraska districts. Social Emotional Learning

Social and emotional learning (SEL) is the process through which children and adults understand and manage emotions, set and achieve positive goals, feel and show empathy for others, establish and maintain positive relationships, and make responsible decisions. Because SEL plays a critical role in learning and human development, the revised standards for English Language Arts recognize it as an integral part of rigorous and meaningful curriculum and instruction.

The CASEL Framework. The Collaborative for Academic, Social, and Emotional Learning (CASEL) is a widely used framework that identifies five core competencies:

Self-awareness: The ability to accurately recognize one's emotions and thoughts and their influence on behavior. This includes accurately assessing one's strengths and limitations and possessing a well-grounded sense of confidence and optimism.

Self-management: The ability to regulate one's emotions, thoughts, and behaviors effectively in different situations. This includes managing stress, controlling impulses, motivating oneself, and setting and working toward achieving personal and academic goals.

Social awareness: The ability to take the perspective of and empathize with others from diverse backgrounds and cultures, to understand social and ethical norms for behavior, and to recognize family, school, and community resources and supports.

Relationship skills: The ability to establish and maintain healthy and rewarding relationships with diverse individuals and groups. This includes communicating clearly, listening actively, cooperating, resisting inappropriate social pressure, negotiating conflict constructively, and seeking and offering help when needed.

Responsible decision-making: The ability to make constructive and respectful choices about personal behavior and social interactions based on consideration of ethical standards, safety concerns, social norms, the realistic evaluation of consequences of various actions, and the well-being of self and others.

Foundations of Reading

A sequence of explicit, systematic phonics instruction provides the foundation for literacy. Nebraska's 2021 College and Career Ready *Foundations of Reading* standards align with the body of research known as the science of reading. A systematic approach to the foundational skills—*Concepts of Print, Phonological Awareness, Phonics and Word Analysis, and Fluency*—supports emergent readers as they develop proficiency during the early years.

Concepts of print. Print concepts refers to the awareness of *how print works*. Examples include that print reads from left to right, that words are separated by spaces, and basic knowledge of the parts of a book.

Phonological awareness. Phonological or phonemic awareness is the ability to recognize and manipulate the sounds in spoken language. Young children begin developing phonological awareness by enjoying and reciting rhyming words and alliterative phrases from familiar stories, songs, or nursery rhymes.

Phonics and word analysis. The ability to match the sounds of spoken language with individual letters or groups of letters is known as *phonics*. Instruction focuses on common letter-sound correspondences, strategies for sounding out letters, and blending sounds into words. Word analysis instruction focuses on recognizing base words, prefixes, and suffixes in increasingly complex words.

Fluency. Fluency is the ability to read with speed, accuracy, and appropriate expression. As the ability to decode, or master letter-sound relationships, improves, so does a student's ability to read smoothly and clearly. Fluency is considered the "bridge" to reading comprehension; a student is considered a proficient reader when both fluency and reading comprehension are at grade level.

The graphic below, known as Scarborough's Rope, represents the complexities involved in learning to read and illustrates the interconnectedness of foundational reading skills. The Reading Rope is comprised of upper and lower "strands" related to language comprehension and word recognition. The elements of word recognition work together as a young reader develops automaticity with decoding and fluency with reading aloud. Language comprehension skills that include background knowledge, vocabulary, and knowledge of language structures, complement development in the lower strand. Over time, increasingly strategic instruction and opportunities for practice assure students grow into proficient readers.

The extent to which students master foundational skills determines their later ability to understand complex, grade-level texts in a variety of subject areas. While many students progress through learning targets naturally and with ease, as literacy expert and author Dr. Louisa Moats explains, "Teaching reading to a student who does not learn easily or naturally is a complex and challenging professional enterprise that requires deep knowledge of content of the cognitive and language factors that shape student learning, and of pedagogical detail."

The Nebraska State Board of Education supports and encourages systemic efforts to improve early literacy for all students, working to ensure that all students become successful readers and writers prepared for college, career, and civic life. Key Features of the Standards

Reading: Text complexity and the growth of comprehension.

The Reading standards place equal emphasis on the sophistication of what students read and the skill with which they read. The standards are designed to demonstrate a grade-by-grade “staircase” of increasing text complexity that rises from beginning reading to the college and career readiness level. Whatever they are reading, students must also show a steadily growing ability to discern more from and make fuller use of text, including making an increasing number of connections among ideas and between texts, considering a wider range of textual evidence, and becoming more sensitive to inconsistencies, ambiguities, and poor reasoning in texts.

Writing: Text types, responding to reading, and research.

The revised standards acknowledge the fact that whereas some writing skills, such as the ability to plan, revise, edit, and publish, are applicable to many types of writing, other skills are more properly defined in terms of specific writing types: arguments, informative/explanatory texts, and literary forms. The *Modes of Writing* standards and indicators convey the importance of the writing-reading connection by requiring students to draw upon and write about evidence from literary and informational texts. Because of the centrality of writing to most forms of inquiry, research standards are prominently included in this strand, though skills important to research are infused throughout this document.

Production of writing: Conventions, effective use, and vocabulary.

The *Production of Writing* strand includes the many skills that comprise essential “rules” of standard written and spoken English, but they also approach language as a matter of craft and informed choice among alternatives. These standards and indicators also recognize the sentence as the building block of writing and build in sophistication as they progress through the grades. The *Vocabulary* standards complement the sequence of grammar, usage, and mechanics with their focus on understanding words and phrases, their relationships, and their nuances and on acquiring new vocabulary, particularly general academic and domain-specific words and phrases.

Speaking and Listening: Flexible communication and collaboration including but not limited to skills necessary for formal presentations.

The *Speaking and Listening* standards require students to develop a range of broadly useful oral communication and interpersonal skills. Students must learn to work together, express and listen carefully to ideas, integrate information from oral, visual, quantitative, and media sources, evaluate what they hear, use media and visual displays strategically to help achieve communicative purposes, and adapt speech to context and task.

Kindergarten Standards

■ FOUNDATIONS OF READING

Concepts of Print | Demonstrate knowledge of the organization and basic concepts of print.

LA.K.F.1 Demonstrate knowledge of the organization and basic concepts of print.

- a. Identify all upper and lowercase letters of the alphabet in isolation and in connected text.
- b. Recognize that spoken words are represented in written language by specific sequences of letters, and that print carries meaning.
- c. Demonstrate understanding that words are separated by spaces in print; demonstrate understanding of one-to-one correspondence between voice and print.
- d. Demonstrate knowledge that print reads from left to right, top to bottom, and page by page.

Phonological Awareness | Demonstrate phonological awareness through oral activities.

LA.K.F.2 Demonstrate understanding of spoken words, syllables, and sounds (phonemes).

- a. Segment and count spoken sentences into words.
- b. Recognize and begin to produce oral rhymes.
- c. Count, produce, and segment spoken words into syllables and identify syllable parts.
- d. Blend onsets and rimes to form simple words (e.g., v-an, gr-ab).
- e. Delete part of a syllable within a spoken word including compound words (e.g., "Say 'parsnip.' Say it again but don't say 'par;' e.g., "Say 'cowboy.' Say it again but don't say 'cow'").
- f. Isolate and pronounce the initial, medial vowel, and final sounds (phonemes) in two- and three-phoneme (VC or CVC) words, excluding CVC words ending with /l/, /r/, or /x/.

Phonics and Word Analysis | Demonstrate phonetic and word analysis knowledge and apply decoding skills to isolated words and in connected text.

LA.K.F.3 Know and apply phonics and word analysis skills in decoding and encoding (spelling) words.

- a. Demonstrate basic knowledge of one-to-one sound to letter correspondences by producing the primary or many of the most frequent sounds for each consonant.
- b. Demonstrate the long and short sounds with common spellings (graphemes) for the five major vowels.
- c. Decode consonant-vowel-consonant (CVC) words.
- d. Encode consonant-vowel-consonant (CVC) words.
- e. Distinguish between similarly spelled words by identifying the sounds of the letters that differ.

Fluency | Read grade-level texts with sufficient accuracy and fluency to support comprehension.

- a. Recognize upper and lowercase letters automatically and accurately.
- b. Read decodable consonant-vowel-consonant (CVC) words with automaticity and accuracy.
- c. Read grade level high-frequency words with automaticity and accuracy (e.g. Fry or Dolch words or those included in instructional materials).

Instructional Considerations

- In recognizing and producing oral rhymes, students should indicate the location of the rhyme, i.e. at the end of a line of print.
- Students can demonstrate understanding of one-to-one correspondence between voice and print by pointing to each word in a sentence as it is read aloud.
- *Phonological awareness* refers to oral skills and to the syllable, onset-rime, and phoneme levels and does not involve print or letter knowledge.
- Many high-frequency words at the primary grade levels are either irregularly spelled or temporarily irregular, thus students have not yet learned the phonics rule that would enable them to decode the word. Those words that are decodable should be introduced to students using appropriate phonics rules. High-frequency words should be introduced utilizing the regular sound-spelling patterns found within the word, not only as words to be memorized.
- *Reading fluency* refers to efficient, effective word recognition skills that permit a reader to construct the meaning of text. "Fluency is manifested in accurate, rapid, expressive oral reading and is applied during, and makes possible, silent reading comprehension," (Pikulski & Chard, 2005).

READING PROSE AND POETRY

Central Ideas and Details | Citing relevant and thorough textual evidence to support ideas, evaluate the development of themes or central ideas in grade-level literary texts.

LA.K.RP.1 With prompting and support, orally retell familiar stories, including key details, and demonstrate understanding of their central message or lesson.

Instructional Considerations

- Making predictions and drawing conclusions, known as *forward inferencing*, occur when readers draw from textual information provided up to that point in the text; confirming predictions using textual evidence is a necessary step after making predictions about a topic or events.
- At this grade level, descriptions should be both oral and written as students respond to questions or engage in discussion.
- In describing settings or characters, students should explain what in the text the descriptions are based upon.
- Students should be made aware that not all narratives contain a central message or lesson.
- At all grade levels, students should read paired, conceptually-related (by topic, theme, and/or genre) literary and informational texts.

READING INFORMATIONAL TEXT

Range of Reading and Level of Text Complexity | Read and comprehend complex, grade-level informational texts independently and proficiently.

LA.K.RI.8 Actively engage in group reading activities with purpose and understanding.

Instructional Considerations

- A text's topic is its general subject, which is typically a word or short phrase describing what the text is about, for example, "zoo animals."
- Making predictions and drawing conclusions, known as *forward inferencing*, occur when readers draw from textual information provided up to that point in the text; confirming predictions using textual evidence is a necessary step after making predictions about a topic or events.
- At this grade level, students may explain orally statements of fact or opinion either in response to questions or while engaging in discussion of text.

■ VOCABULARY

Acquisition and Use | Build and use a range of conversational, academic, and discipline-specific grade-level vocabulary and apply to reading, writing, speaking, and listening.

■ **Instructional Considerations**

- *Academic vocabulary* refers to words likely to appear in a variety of content area texts, at or above grade-level, and typically requires explicit instruction. Students should be encouraged to use newly acquired terms frequently in speaking and writing.
- The vast majority of academic vocabulary taught should derive from complex texts—a careful review of texts for challenging words that are central to understanding the meaning of the text, including figurative language, should determine which vocabulary is taught explicitly (sometimes in advance of reading).
- Include a word study component that includes prefixes, root words, and suffixes to accompany text-based methods of vocabulary development.
- Reading aloud to students using texts that are two grade levels higher than their reading level is an evidence-based practice for activating prior knowledge and building vocabulary.

- c. Read grade level high-frequency words with automaticity and accuracy (e.g., Fry or Dolch words or those included in instructional materials).

Instructional Considerations

- *Phonological awareness* refers to oral skills and to the syllable, onset-rime, and phoneme levels and does not involve print or letter knowledge.
- *Phonics* refers to the relationship between graphemes (letters or letter combinations) and phonemes (speech sounds).
- Many high-frequency words at the primary grade levels are either irregularly spelled or temporarily irregular, thus students have not yet learned the phonics rule that would enable them to decode the word. Those words that are decodable should be introduced to students using appropriate phonics rules. High-frequency words should be introduced utilizing the regular sound-spelling patterns found within the word, not only as words to be memorized.
- *Reading fluency* refers to efficient, effective word recognition skills that permit a reader to construct the meaning of text. “Fluency is manifested in accurate, rapid, expressive oral reading and is applied during, and makes possible, silent reading comprehension,” (Pikulski & Chard, 2005).
- Students at this grade level should practice reading fluently with texts within the grade band for quantitative complexity measures and appropriate in content and qualitative measures.

High-frequency words should be introduced utilizing the regular sound-spelling patterns found within the word, not only as words to be memorized.
- *Reading fluency* refers to efficient, effective word recognition skills that permit a reader to construct the meaning of text. "Fluency is manifested in accurate, rapid, expressive oral reading and is applied during, and makes possible, silent reading comprehension," (Pikulski & Chard, 2005).
- Students at this grade level should practice reading fluently with texts within the grade band for quantitative complexity measures and appropriate in content and qualitative measures.
- *Prosody* refers to the patterns of pausing to reflect the meaning of text while reading aloud.

Grade 5 Standards

FOUNDATIONS OF READING

Concepts of Print | Demonstrate knowledge of the organization and basic concepts of print.
Mastered at Grade 2 and blended with other skills at this grade level.

Phonological Awareness | Demonstrate phonological awareness through oral activities.
Mastered at Grade 2 and blended with other skills at this grade level.

Phonics and Word Analysis | Demonstrate phonetic and word analysis knowledge and apply decoding skills to isolated words and in connected text.

LA.5.F.3 Know and apply phonics and word analysis skills in decoding and encoding (spelling) words.

- a. Decode words with common Greek derived words.
- b. Use combined knowledge of letter-sound correspondences, syllabication patterns, and morphology (e.g., roots and affixes) to decode unfamiliar multisyllabic words in and out of context.

Fluency | Read grade-level texts with sufficient accuracy and fluency to support comprehension.

LA.5.F.4 Develop accuracy, phrasing, and expression/prosody while reading a variety of grade-level texts to support comprehension.

- a. Read a variety of texts accurately using appropriate rate, expression/prosody, and intonation to reflect meaning.
- b. Adjust pace and prosody based on the purpose, complexity, form, and/or style of a text.

Instructional Considerations

- *Phonics* refers to the relationship between graphemes (letters or letter combinations) and phonemes (speech sounds).
- Many high-frequency words at the primary grade levels are either irregularly spelled or temporarily irregular, thus students have not yet learned the phonics rule that would enable them to decode the word. Those words that are decodable should be introduced to students using appropriate phonics rules. High-frequency words should be introduced utilizing the regular sound-spelling patterns found within the word, not only as words to be memorized.
- *Reading fluency* refers to efficient, effective word recognition skills that permit a reader to construct the meaning of text. “Fluency is manifested in accurate, rapid, expressive oral reading and is applied during, and makes possible, silent reading comprehension,” (Pikulski & Chard, 2005).
- Students at this grade level should practice reading fluently with texts within the grade band for quantitative complexity measures and appropriate in content and qualitative measures.
- *Prosody* refers to the patterns of pausing to reflect the meaning of text while reading aloud.

Appendix: Key Instructional Shifts for English Language Arts

Shifting instructional practice is central to improving teaching and learning. The 2021 revisions to Nebraska's College and Career Ready Standards for English Language Arts, per Nebraska revised statute 79-76.001, require a number of key shifts in classroom practice and consideration of curricular materials that are essential to realize the vision of excellent literacy instruction. This document provides an overview of the key instructional shifts for English Language Arts and the roles that teachers, students, and school leaders* have in the stages of their implementation.

ELA/Literacy Shift 1: Science of Reading/Foundations of Reading | The revised standards are designed around the *Science of Reading* which is a vast, interdisciplinary body of scientifically-based research about how young children learn to read. The *Foundations of Reading* standards and indicators at each grade level outline a carefully sequenced progression of skills that should inform instruction of phonology, sound-symbol association, syllables, morphology, syntax, and semantics. A systematic, cumulative approach ensures all students attain early literacy proficiency.

Teachers...

- Provide explicit instruction in print concepts, phonological awareness, phonics, and fluency.
- Provide frequent, meaningful opportunities for practice of newly acquired skills.
- Progress monitor with diagnostic assessments.
- Differentiate instruction for struggling readers.

School leaders...

- Provide systematic early literacy training based on the science of reading.
- Provide access to HQIMs and ongoing support for their implementation.
- Create structures that maximize core instruction during literacy blocks.
- Ensure school environments are print-rich.

Students...

- Orally practice phonemic awareness activities.
- Engage in frequent, meaningful practice of emerging skills.
- Read high-quality decodable texts at school and at home.
- Self-select literary and informational texts based on their interests.

ELA/Literacy Shift 2: Staircase of Complexity | In order for students to be prepared for the complexity demands of the texts they will encounter in college, career, and personal life, each grade level requires a “step” of growth on the “staircase of complexity.” High-quality, knowledge-building texts that are at or above grade level should form the center of instruction.

Teachers...

- Use anchor and supporting texts that increase in complexity over the year.
- Provide frequent, meaningful opportunities for close reading and re-reading.
- Provide rigorous tasks and opportunities to write and speak about content.
- Scaffold instruction for struggling readers.

School leaders...

- Develop and refine a district-wide, cohesive scope and sequence grounded in complex, knowledge-building texts.
- Provide deep, sustained professional learning on the implementation of HQIMs.
- Create structures for cross-curricular experiences with complex texts.

Students...

- Employ strategies for comprehending grade-level texts and their academic language.
- Increase time spent writing about the content of complex texts using academic language.
- Interact meaningfully with complex texts through robust discussion.
- Self-select texts at their own reading level.

ELA/Literacy Shift 3: Balancing Literary and Informational Texts | The revised standards reflect the unique but interrelated skills associated with successful comprehension of literary (“Prose and Poetry,”) and informational text types. It is recommended students read a 50-50 balance of literary and informational texts, thereby building their knowledge of the world and content in science, social studies, the arts, and literature.

Teachers...

- Provide rich experiences with a variety of text types.
- Explicitly teach the unique characteristics and features of informational text.
- Use thematically-related text sets designed to build deep knowledge of topics.
- Read aloud to students to model expert, fluent reading of text.
- Scaffold instruction for struggling readers.

School leaders...

- Develop and refine a district-wide, cohesive scope and sequence grounded in complex, knowledge-building texts.
- Provide deep, sustained professional learning on the implementation of high-quality instructional materials.
- Develop structures and professional learning opportunities so that students access complex text in all content areas.

Students...

- Read a balance of literary and informational texts across content areas.
- Read a wide range of multimodal texts in which meaning is conveyed through visual, audio, gestural, tactile, and spatial means.
- Build vocabulary through a combination of conversation, direct instruction, and reading.
