Intent of Handbook

Each student/parent is responsible for becoming familiar with the handbook and knowing the information contained in it. Although the information found in this handbook is detailed and specific on many topics, the handbook is not intended to be all encompassing so as to cover every situation and circumstance that may arise. This handbook is intended to supplement other documents, policies and regulations of the Board of Education. In reading this handbook, please understand that where a direct conflict exists, state or federal law, the negotiated agreement, and Board policies and regulations will control.

Mission

The mission of the Holdrege Public Schools is to prepare students to be lifelong learners and productive, responsible citizens by providing a quality education in cooperation with family and community.

Statement of Philosophy for Holdrege Public Schools

The Holdrege Public Schools have been established by this community for the purpose of preparing students to assume their place as responsible, productive citizens in our community, state, nation, and world. To accomplish this we must endeavor to provide experiences and opportunities for each individual to develop to their fullest potential. We must impart not only knowledge, but the thinking skills to put our knowledge to use. We are charged with assisting the student to acquire the skills, attitudes, appreciations, and insights which will help him or her to live effectively and productively in a challenging and changing world.

Governing Values

We believe . . .

- that everyone deserves to be treated with dignity and respect.
- that we must demonstrate, encourage, and expect responsible behavior.
- that all students are individuals with unique talents and abilities.
- that all students should be given the opportunity for an appropriate education to help them reach their potential.
- that we are committed to prepare our students for the future.
- that schools should provide an inviting and stimulating environment for all.
- that learning is a lifelong process with responsibility shared by the learner, school, home, and community.

Goals

The goals and objectives of Holdrege Public Schools are to provide:

1. A curriculum that is based on state standards; comprehensive, coordinated, and sequential, and is directed toward locally approved goals and standards for student learning. It draws upon research, best practice, and reputable theory and provides the foundation for standards based instruction. The instructional program focuses on achievement and provides for the diverse learning needs of all students including learners with disabilities and high ability learners. Curriculum and instruction help students develop content and skill mastery, analytical thinking, problem solving, work ethics, creativity, and respect for diversity.
2. An instructional program that focuses on achievement and provides for the needs of all students, including learners with disabilities and high ability learners. It draws upon research, best practice, and reputable theory broad enough yet with sufficient depth to allow education for all of the students.
3. Assessment procedures and results that assist teachers in planning and providing appropriate instruction for all students. Assessment results also provide information for monitoring program success, and for reporting to parents, policy makers, and the community. The school periodically reviews procedures to improve assessment quality and increase student learning. The information assists schools in establishing and achieving improvement goals.
4. A library/media/technology program that provides a wide range of accessible print and electronic resources that expand opportunity for learning, contribute to information literacy, support the local curriculum, and enhance and enrich learning experiences for all students. The program provides materials through onsite and electronic access that complement, supplement, and enrich curriculum and instruction. It facilitates research, supports and encourages personal interest reading and the study of current events, and develops technological and other skills for accessing, evaluating, and using resources.

5. Instructional staff who have appropriate training and preparation to work with the students assigned to them, who are knowledgeable of principles of child growth and development and of the curriculum content for which they are responsible, who use teaching strategies that engage students actively in learning, and who help students understand and apply content across subject areas. Staff development activities that support the school's efforts in curriculum development, instructional improvement, assessment, and general school improvement to achieve school improvement goals.
6. Administration that exercises leadership in the development and implementation of school goals and policies. Administrators who demonstrate leadership in management and operation of the school system and in the improvement of curriculum and instruction. Building administrators who provide leadership to curriculum, instruction, assessment, and school improvement. They guide staff and students in achieving goals and fulfill other functions supportive of quality learning.
7. A systematic ongoing process that guides planning, implementation, and evaluation and renewal of school improvement activities to meet local and statewide goals and priorities. The school improvement process focuses on improving student learning. The process includes a periodic review by visiting educators who provide consultation to the school/community in continued accomplishment of plans and goals.
8. A school system that demonstrates accountability to the school community. School staff periodically assesses and reports student progress toward accomplishment of academic content standards. Results are used to plan and make needed changes to improve instruction for all students.
9. School facilities and a general environment that supports quality learning. Facilities and grounds are safe, orderly, and well maintained, and facilities that have adequate space, lighting, and furnishings. The system has plans or provisions for climate-controlled buildings to the extent feasible. The environment is emotionally safe and supportive and promotes respect, trust, and integrity.
10. A Board of Education that governs through orderly procedures which focus efforts of the school upon quality learning, result in equitable opportunities for learning for all students, and insure accountability to the local community.
11. An activities program that is scheduled outside the regular school day, focuses on active participation of all students involved in the activity, and promotes a positive image of the school and community.
12. A welcoming environment for parents and the community.

Core Beliefs

1. We believe that every attempt should be made to maintain the dignity of both the adult and the student.
2. We believe that students should be guided and expected to solve the problems they create without making problems for anyone else.
3. We believe that students should be given the opportunity to make decisions and live with the results, whether the consequences are good or bad.
4. We believe that misbehavior should be viewed as an opportunity for individual problem solving and preparation for the real world as opposed to a personal attack on the school or staff.
5. We believe that it is best if a student does most of the thinking.
6. We believe that there should be a logical connection between misbehavior and resulting consequences.
7. We believe that students should have the opportunity to tell their side of the story (due process hearing) when consequences appear to be unfair.
8. We believe that school problems should be handled by school personnel and that criminal activity should be referred to the proper authorities.

Mutual Respect

Holdrege Public Schools expect every staff member and student to be treated with respect and dignity. A show of disrespect toward a staff member or insubordination on the part of students will not be tolerated.

Complaint Procedures

The proper procedure for a parent or student to make complaints or raise concerns is to begin with the school employee who is most immediately or directly involved in the matter, as illustrated in the complaint procedure set forth below. There are specific procedures to address certain complaints or concerns, such as discrimination or harassment, bullying, disciplinary actions. Those procedures should be used where applicable.

1. Complaint procedure

- Step 1 – Schedule a conference with the staff person most immediately or directly involved in the matter.
 - Step 2 – Address the concern to the Principal if the matter is not resolved at Step 1.
 - Step 3 – Address the concern to the Superintendent if the matter is not resolved at Step 2.
2. Step 4 – Address the concern to the Board of Education if the matter is not resolved at Step 3. Conditions Applicable to All Levels of Complaint Procedure
- All information to be considered at each step should be placed in writing in order to be most effective. Action or decisions will be expedited as quickly as possible, typically within ten (10) calendar days, depending on the nature of the complaint and the need for prompt resolution.

Severe Weather and School Cancellations

The Superintendent of Schools is authorized by the Board of Education to close public schools in case of severe weather. Representatives of the Superintendent's staff will notify local news media when inclement weather warrants such action. The information is broadcast regularly by radio and television stations. HPS also utilizes an automated phone notification system to inform parents and staff of school closings and delayed starting times.

Decision to Close Schools – A decision to close school is made when forecast by the weather service and civil defense officials indicate that it would be unwise for students to go to school. An early decision is not always possible because of uncertain weather conditions. School officials will make periodic assessment of conditions during the night and will decide early in the morning. In any case, an announcement will be made to the news media when schools will be closed and the automated calling system will be activated. In some instances, schools will be open, but certain services may be canceled (bus transportation, preschool, student activities).

After School Starts – Every attempt will be made to avoid closing school once classes are in session. In some instances, closing school during the day is inevitable if children are to safely return home before the brunt of a major storm hits. In these cases, as much advance notice as possible will be given. If school is closing during the day, staff will be notified and parents will be notified via media broadcast and the automated calling system. Teachers will be responsible for remaining with students until all students have safely left school or the administration has made arrangements for remaining students.

Parental Decisions – Parents may decide to keep their children at home in inclement weather because of personal circumstances. Students absent because of severe weather when school is in session will be marked absent. Teachers should treat the absence like any other absence for legitimate causes provided parents properly notify the school of their decision. Parents may pick up their children in inclement weather (except in case of a tornado) at any time during the school day.

Emergency Conditions – HPS has a signal which, when activated, includes the necessity to either evacuate the building or to move to safer areas of the building. All regular drills are held as required by law throughout the school year. The following plans are in place: Emergency Exit System, Tornado Warning System, and Critical Incident Response. **School officials are not permitted to release students from the school building during a tornado warning.** In the event of an emergency exit alert or tornado warning, teachers should implement the school's established safety procedures.

Emergency Closing Procedures – Parents are requested to provide an emergency contact telephone number to have on file in the event of an emergency closing or any other general or individual situation that requires the immediate presence of a parent/guardian. In the event that parents do not have such a number or cannot be contacted, it will be assumed that the parent has instructed their children concerning the procedure they are to

follow should school be dismissed early. Realizing that the school might be unable to reach all parents, it is suggested that all children be advised as to what they are to do should they ever be dismissed early. It is recommended that parents give their children an alternate destination and that the building principal be made aware of this information.

If conditions allow and supervision is available in the event of an early dismissal, the child will be held in school until the normal dismissal time. If the parent or guardian has not arrived to pick up the child by the normal dismissal time, law enforcement or child protective services may be contacted to ensure the safety of the child.

Generally, if school is canceled, extracurricular sport/activity practices, rehearsals, performances, or contests will not be held. Exceptions shall be determined by the administration.

Open-Closed Campus - Lunch

All **PK-9th** grade students are required to remain on campus during the school day, except for students that have parent permission slips in the office allowing them to walk home for lunch or be picked up by one of their parents. **Tenth (10th) through 12th** grade students have an open campus during lunch.

Supervision Responsibility Before/After School

Arrival at School/Dismissal from School – Students are expected to arrive at school no more than 30 minutes prior to the first class or school program in which they are participating and will not be admitted into the building prior to 7:30 a.m. Students will not be permitted to enter earlier unless the Principal determines it to be necessary due to inclement weather or other factors. **Prior to that time, the school is not responsible for supervision of the students.** Students are to enter through their assigned entrance and proceed to designated areas. After-school supervision ends at 3:45 p.m. and all students are to have left the building, unless participating in an activity or sport, or if arrangements are made with a teacher.

Students will be dismissed at the end of the last period of the school day unless there are other circumstances (early dismissal, detention etc.). Upon dismissal, students must leave the school grounds and proceed home or to a previously designated location unless participating in a school-sponsored activity. **The school is not responsible for supervision of students once the students are to have left school grounds.**

Certain days on the calendar are “shortened days,” meaning that the school day starts or ends other than on the normal schedule. Parents are strongly encouraged to be aware of those days so their children are not left in an unsupervised situation or without a means to get home upon dismissal.

Signing a Child In and Out of School – Parents or guardians are required to call in or send a note if their children are entering after their first class or leaving prior to their final class. Your child will be given a pass for the time indicated and will be released from class at that time. **PK-4th grade students are required to be signed out in the office by a parent/guardian/emergency contact. Fifth (5th)-12th grade students should sign out at the office, but a parent/guardian is not required to be present.** The schools will only release children to a parent/guardian or an adult designated by the parent/guardian on the emergency card.

If there is a special circumstance, such as a court order limiting access to a student or who a student can be released to, the parent/guardian must provide the Principal with a copy of that order to maintain on file at the school.

Visitors

All visitors must report to the office, upon entering the main entrance, to sign in and receive a visitor's pass. Visits to classrooms during the first week of school and the last week of school may be limited to ensure a smooth transition. Visits by parents to classrooms are encouraged; provided that the visits do not disrupt the educational program, individual students, or create a safety concern. Classroom visits must be approved in advance by the Principal and will be limited to one hour.

Drop Off/Pick Up Areas & Parking

HPS Early Childhood Education – Preschool – Parents/Guardians should bring their student(s) no more than 5 minutes before the time school starts and pick up the student(s) promptly at dismissal, accompanying the student(s) at all times between the parking area and the classroom.

Holdrege Elementary School – Parents/Guardians may drop off students in the drop off lane in front of the school. **When picking up students, parents/guardians must park in the designated parking areas and walk**

to the school entry to escort their child safely to their vehicle. Students will not be allowed to approach the parking lot without adult supervision.

Holdrege Middle School – Before and after school, students should be dropped off or picked up in the east parking lot to avoid school bus traffic. During school hours, parents may use the horseshoe drive in front of the school building for quick pick up and drop off for appointments.

Holdrege High School – Students may park in any parking stall except those reserved for school employees, guests, buses, and persons with handicaps. Staff parking is identified with yellow lines and student parking is identified with white lines. All students are required to obtain a parking permit from the Principal's office. Student drop off/pick up will be at the south main front entrance.

Smoke-Free Environment

All of our school buildings and grounds are smoke, vape, and tobacco-free. We would appreciate your help in meeting the goal of a smoke, vape, and tobacco-free environment for our children. When you attend school events, including athletic events, please abide by our District's policy.

Care of School Property

Students are responsible for the proper care of all books, equipment, supplies, and furniture supplied by the school. Students who disfigure property, break windows, or do other damage to school property or equipment will be required to pay the District for the replacement cost or damage done as determined by the Principal or his/her designee. School issued items that are stolen or damaged are the responsibility of the student to whom they were issued. Students must pay all damage assessments and fines before they can receive school publications and final grades.

Lockers

Each student will be assigned a locker. Students must use their own lockers and are not to share lockers with other students except as assigned by school officials. Students are expected to keep all books, etc., in their assigned locker. Students are also responsible for the cleanliness inside their locker and the door of their locker. Students may be assessed a fine for damage to lockers.

High school lockers are required to be locked at all times when not being accessed.

Searches of Lockers and Other Types of Searches

Board Policy 5406 Search and Seizure is included in the Appendix.

Video Surveillance

The Board of Education has authorized the use of video cameras on School District property to ensure the health, welfare and safety of all staff, students and visitors to District property, and to safeguard District facilities and equipment. Video cameras may be used in locations deemed appropriate by the superintendent.

Notice is hereby given that video surveillance may occur on District property. In the event a video surveillance recording captures a student or other building user violating school policies or rules or local, state or federal laws, the video surveillance recording may be used in appropriate disciplinary proceedings against the student or other building user and may also be provided to law enforcement agencies.

Use of Telephone

Use of the office phone will only be allowed in an emergency or when a student is ill. Students may use the office phone after receiving permission to do so. The office phone is not to be used for planning after school activities. We encourage these plans to be made ahead of time.

Bicycles

Bicycles must be parked in the racks provided. All bicycles should be equipped with locks and licenses. The school is not responsible for damage or theft of parts while bicycles are on school property.

Student Valuables

Students, not the school, are responsible for their personal property. Students are cautioned not to bring large amounts of money or items of value to school. If it is necessary to bring valuable items or more money than is needed to pay for lunch, leave the money or valuables with a staff member in the school office for temporary and

safe-keeping. Even then, the school is not in a position to guarantee that the student's property will not be subject to loss, theft, or damage.

Lost and Found

Students who find lost articles are asked to take them to the office, where the articles can be claimed by the owner. If articles are lost at school, report that loss to office personnel. We strongly recommend labeling bags, sweatshirts, coats, etc. Each week items that have not been claimed will be donated to a local charity on the following Friday.

Accidents

Every accident in the school building, on the school grounds, at practice sessions, or at any athletic event sponsored by the school must be reported immediately to the Principal.

Laboratory Safety Glasses

As required by law, approved safety glasses will be required of every student and teacher while participating in or observing vocational, technical, industrial technology, science, and art classes that require safety glasses. All visitors to these areas must check out a pair of safety glasses when entering any of these areas.

Insurance

Under Nebraska law the District may not use school funds to provide general student accident or athletic insurance. The District requires that all student participants in athletic programs have injury and accident insurance and encourages all students who are in classes with risk of personal injury or accident to have insurance coverage. Information about student insurance is offered to every student.

We wish to emphasize that the school district does not provide any type of health or accident insurance for injuries incurred by your child at school. We further encourage all families to have accident coverage on their children prior to participation in any sports or school sponsored activity. Holdrege Public Schools provides the opportunity for families to access optional insurance coverage via Student Assurance Services, Inc. An explanation of the cost and benefits is explained in the brochure and premium envelope. If you feel your insurance is adequate, simply sign the Insurance Waiver section that can be found on the Handbook signature page.

Bulletins and Announcements

Bulletin boards and display cases are available for school-related and approved materials to be posted and displayed. Posters to be used in the halls or materials for distribution will need to be approved by the Principal's office. Posters may be placed on glass, metal, brick, stone, and wood surfaces and may not be attached to painted wall surfaces. The person or organization responsible for distributing the posters is responsible to see that all posters are removed within 48 hours after the event.

Copyright and Fair Use Policy

It is the school's policy to follow the federal copyright law. Staff members and students are reminded that, when using school equipment and when completing course work, they also must follow the federal copyright laws. The federal copyright law governs the reproduction of works of authorship. Copyrighted works are protected regardless of the medium in which they are created or reproduced; thus, copyright extends to digital works and works transformed into a digital format. Copyrighted works are not limited to those that bear a copyright notice.

The "fair use" doctrine allows limited reproduction of copyrighted works for educational and research purposes. The relevant portion of the copyright statute provides that the "fair use" of a copyrighted work, including reproduction "for purposes such as criticism, news reporting, teaching (including multiple copies for classroom use), scholarship, or research" is not an infringement of copyright. The law lists the following factors as the ones to be evaluated in determining whether a particular use of a copyrighted work is a permitted "fair use," rather than an infringement of the copyright:

- The purpose and character of the use, including whether such use is of a commercial nature or is for nonprofit educational purposes;
- The nature of the copyrighted work;
- The amount and substantiality of the portion used in relation to the copyrighted work as a whole; and
- The effect of the use upon the potential market for or value of the copyrighted work.

Although all of these factors will be considered, the last factor is the most important in determining whether a particular use is “fair.” Students should seek assistance from a faculty member if there are any questions regarding way may be copied.

Extracurricular Activities Participation

The school district offers a variety of extracurricular activities for students in grades 7-12. Such offerings are determined on an annual basis by the administration, subject to approval by the Board of Education. Student participation in these activities is governed by district policy and guidelines, as well as the Nebraska School Activities Association (NSAA).

Board Policy 5103 Extracurricular Activity is included in the Appendix and addresses participation guidelines, attendance requirements, and discipline. **Students must be in attendance for the full day (excused absences as defined in Board Policy 5008 Attendance are waived) to be eligible for contests, performances, practices, or rehearsals.**

NSAA information, rules, eligibility requirements, and forms for parents and students are available at <https://nsaahome.org/parents-information>.

Students in grades 7-8 participating in sports, as well as students in grades 9-12 participating in any NSAA governed extracurricular sport or activity, are required to have a physical from a qualified health provider and appropriate consent/permission forms on file in the school office prior to participation in the current school year. Physicals must be dated no earlier than May 1 prior to the beginning of the school year.

Extracurricular Activities Participant Drug Testing Program

Recognizing that observed and suspected use of alcohol and illicit drugs by students participating in extracurricular activities is a serious concern, a program of deterrence has been instituted as a proactive approach to a truly drug free school. This program is required for Holdrege High School students (grades 9-12) participating in any NSAA governed extracurricular sport or activity. The program information, procedures, and forms are included in the Appendix.

Athletics/Activities Passes

Students and adults may purchase an activities pass for the year as noted below. Students who qualify for free/reduced meals may have this fee waived by filling out a fee waiver and requesting the pass from the office. Students in grades 7-8 participating in sports are required to have an activities pass. Students in grades 9-12 participating in any NSAA governed extracurricular sport or activity are required to have an activities pass.

- HPS Preschool – no pass necessary, admission not charged for children under age 5, or age 5 but not enrolled in Kindergarten
- HES Students Grades K-4 – \$30
- HMS Students Grades 5-8 – \$40
- HHS Students Grades 9-12 – \$60
- Individual Adult – \$75 *
- Two Adults in Household – \$140 *

**Adult and senior citizen passes are available only through the Holdrege High School Office.*

Extracurricular Activities Transportation

School transportation will be provided to all extracurricular contests/practices away from Holdrege. Students are expected to ride to and from contests/practices with the team. In no case may a participating student drive his/her own vehicle, including contests/practices at a cooperative program school. A written personal request from a parent/guardian may be submitted to the coach or Activities Director (at least 24 hours in advance) to allow a participating student to ride home from a contest/practice. The coach/sponsor must witness the athlete leaving with his/her parent/guardian from the contest/practice.

Student Access to Athletic Facilities Outside of Curricular & Extracurricular Programs

High school student access for the use of specific athletic facilities outside of the curricular and extracurricular programs use may be arranged through the Activities Director and completion of an access agreement. Parameters include the following:

- The access agreement covers August 1st through May 31st of the current school year for full-time enrolled Holdrege High School students in 9th through 12th grade. Students will not have access during any period of suspension or expulsion.
- Agreement must be fully completed for an individual student and approved by the Activities Director before any access will be granted. The agreement will cover only the specific facility/facilities indicated and must be signed by both the student and the parent/guardian who will be present for the duration of the student's use of the facilities and any related equipment.
- Digital prox card access will be provided to the parent/guardian based on the access agreement and may not be used for access to district facilities for any other reason. A prox card replacement fee may be assessed for lost or damaged cards.
- Parent/Guardian may not supervise other students outside their household. If multiple students are using a facility, the parent/guardian specified in each individual student's agreement must be present for the duration.

- Student and Parent/Guardian will be fully liable for proper operation and care of district-owned equipment and will be liable for damage to or destruction of equipment or property.
- Access is not guaranteed by submitting this form and is at the discretion of the Activities Director.
- The Activities Director will provide general facilities availability information to individuals granted access via this agreement and will have full discretion to make changes in the schedules to carry out the curricular and extracurricular programs of the district or limit access to any facility should demand exceed availability.
- The agreement includes a hold harmless/liability release.
- The agreement is not intended for club/organized team practices, scrimmages, or competition.

Student Fees

Board Policy 5305 Student Fees is included in the Appendix.

Attendance

Board Policy 5008 Attendance is included in the Appendix.

Excessive Absences/Tardiness

HPS Early Childhood Education – Preschool – A student will be considered tardy if they arrive 20 minutes or less after school begins. If a student arrives after that time, the absence will be recorded in attendance.

Holdrege Elementary School – A student will be considered tardy if they arrive 20 minutes or less after the tardy bell has rung at 8:05 a.m. If a student arrives after 8:25, the absent minutes will be recorded in attendance and will be reported to the County Attorney if the accumulated absences violate statutory attendance requirements.

A student that accumulates three tardies within the current quarter will be required to arrive at school at 7:50 a.m. on the next school day following the third tardy. The time will be served from 7:50-8:00 a.m. in the school office, which will ensure the student is on time for school. This requirement will apply for each additional tardy within the quarter. If the student continues to be tardy in a subsequent quarter of the school year, the student and parents will be required to meet with the principal to create a plan to improve attendance.

Holdrege Middle School – Students have ample time to move from one classroom to another. If a student accumulates five tardies, then they will be given a 30 minute detention to be served before/after school or during a student's lunch/recess, as arranged by the Principal.

Holdrege High School – High school students are expected to attend class on a regular basis. Students are considered tardy if they arrive after the tardy bell within the first 15 minutes of each class period. Arrivals after 15 minutes into the class period will be counted absent for the period. Unexcused tardies will be made up either after school on the day of occurrence or the next morning of attendance during access period. If the tardy is not made up during one of these times, the student will be added to the ineligible list until the tardy is made up. The accumulation of three unexcused tardies will count as one absence in the attendance calculation and will apply to loss of credit and reporting procedures as outlined in the attendance policies.

In order to emphasize the relationship between attendance and academic success, credits toward graduation will be awarded based on attendance, as follows: Students who attend 90% or more of the scheduled class sessions will be awarded the full 5 credits towards graduation if they achieved a passing grade. Students who attend 80%-89% of the scheduled class sessions will be awarded 4 credits towards graduation if they achieved a passing grade. Students who attend 70%-79% of the scheduled class sessions will be awarded 3 credits towards graduation if they achieved a passing grade. Students who attend less than 70% of the scheduled class sessions and still achieve a passing grade may have 2 credits towards graduation awarded upon approval of a committee consisting of the Principal, Counselor and Teacher of that particular class. **Students may have the opportunity to earn back attendance credit as arranged by the Principal.*

Special Education Services

What Does Special Education Mean? Special education means specially designed instruction and related services adapted as appropriate to the needs of an eligible student with a disability. Special education is provided at no cost to the parent to meet the unique needs of a child with a disability.

Students Who May Benefit – A student verified as having autism, behavior disorders, deaf-blindness, developmental delay, hearing impairments, mental handicaps, multiple disabilities, orthopedic impairments, other health impairments, specific learning disabilities, speech-language impairments, traumatic brain injury or visual impairments, who because of these impairments need special education and related services.

How are Students With Disabilities Identified? Referrals are made by teachers or parents to a Student Assistance Team. If the student assistance team or comparable problem solving team feels that all viable alternatives have been explored, a referral for multidisciplinary evaluation is completed. An evaluation is conducted to assist in the determination of whether a student has a disability and the nature and extent of the special education and related services the student needs. The evaluation is conducted only with written consent of a parent or guardian. A multidisciplinary evaluation team (MDT) will then meet to determine whether the student is eligible for special education.

Independent Evaluation – If a parent disagrees with an evaluation completed by the school district, the parent has a right to request an independent educational evaluation at public expense. Parents should direct inquiries to school officials to determine if the school district will arrange for further evaluation at public expense. If school district officials feel the original evaluation was appropriate and the parents disagree, a due process hearing may be initiated. If it is determined that the original evaluation was appropriate, parents still have the right to an independent educational evaluation at their own expense.

Reevaluation – Students identified for special education will be reevaluated at least every three years by the IEP team. The IEP team will review existing evaluation data on the student and will identify what additional data, if any, are needed. The school district will obtain parental consent prior to conducting any reevaluation of a student with a disability.

Individual Education Program (IEP) – Upon a student being verified as having a disability, a conference will be held with parents. At the conference, an Individualized Education Program (IEP) will be developed specifying programs and services which will be provided by the schools. Parent consent will be obtained prior to a student being placed for the first time in a program providing special education and related services or early intervention services to infant and toddlers. Once in place, the IEP is reviewed on an annual basis, or more frequently as needed. Parents are given a copy of the IEP.

Special Education Placement – The student's placement in a special education program is dependent on the student's educational needs as outlined in the Individual Education Program (IEP). To the maximum extent appropriate, students with disabilities are educated with students who are not disabled. Special classes, separate schooling, or other removal of children with disabilities from the regular educational environment occurs only when the nature or severity of the disability is such that education in regular classes with the use of supplementary

aids and services cannot be achieved satisfactorily. Determination of a student's educational placement will be made by the IEP team.

Written notice shall be given to parents a reasonable time before the school district: 1) Proposes to initiate or change the identification, evaluation, verification or educational placement of a child or the provision of a free appropriate public education; or 2) Refuses to initiate or change the identification, evaluation, or educational placement of the child or the provision of a free appropriate public education to the child.

More Information – Anyone interested in obtaining a copy of the District's special education policy, the Parental Rights in Special Education brochure, or a copy of the Nebraska Department of Education Rule 51 (special education regulations and complaint procedures) or Rule 55 (special education appeal procedures) may contact the Superintendent

ELL SERVICES

Who are English Language Learners? According to Elementary and Secondary Education Act (ESEA), English Language Learners (ELL) are those individuals who have a native language other than English and whose difficulties in speaking, reading, writing, or understanding the English language may be sufficient to deny the individual (i) the ability to meet the State's proficient level of achievement of state assessments, (ii) the ability to successfully achieve in classrooms where the language of instruction is English, or (iii) the opportunity to fully participate in society.

Each district with ELL students should have written-definition used for determining services and meeting Office of Civil Rights requirements.

Note: Foreign exchange students are NOT considered as ELL students and should not be included in the district assessment process.

In addition to be assessed on the academic content standards, ELL students must be tested and reported annually on language acquisition skills.

A set of English language proficiency guidelines for K-12 language arts standards has been developed through the work of an ELL Advisory group consisting of educators from across the state. Those guidelines, developed in grade clusters, should be used to develop the language acquisition program. To access those guidelines, you may go to the NDE homepage, www.education.ne.gov and click on “NDE” Teams/Sections” and click on “LEP Limited English proficiency”.

Column 1 – A student meets one or more of the following requirements:	AND	Column 2 – As a result of the circumstances listed in Column 1:
Is age 3 to 21;		
Is enrolled or preparing to enroll in an elementary or secondary school;		Whose difficulties in speaking, reading, writing, or understanding the English language may be sufficient to deny the individual:

Is migratory, and whose native language is a language other than English, and who comes from an environment where a language other than English is dominant.		<ul style="list-style-type: none"> • The opportunity to participate fully in society.

Guidance Services

Holdrege Public Schools provides a guidance counselor at all grade levels for the purpose of assisting with the testing program, academic planning, scheduling assistance, and resolution of individual student problems and conflicts.

Behavioral Points of Contact

The HPS district-wide behavioral point of contact is Stefanie Neal, Mental Health Practitioner. She can be reached by contacting the school office or by email at stefanie.neal@dusters.org. Board Policy 6930 Behavioral Points of Contact is included in the Appendix.

Student Illnesses

School health personnel will notify parents when a student needs to be sent home from school due to illness. Conditions requiring a student be sent home include: Temperature greater than 100°F., vomiting, diarrhea, unexplained rashes, live head lice, inflamed red eyes and/or drainage, frequent persistent cough, earache and/or drainage from the ear, questionable illness or injuries which may require evaluation by a physician, sores that appear infected or are draining or on determination by the school nurse that the child’s condition prevents meaningful participation in the educational program, presents a health risk to the child or others, or that medical consultation is warranted unless the condition resolves.

Please provide the school with emergency daytime phone numbers so that you can be reached if your child becomes ill or injured while at school. It is helpful to have other emergency numbers on file in case we cannot reach you.

Please also inform your school health office staff of health related information you feel is important for your student’s success in the classroom and/or safety at school.

Guidelines for Administering Medication

Whenever possible your child should be provided medications by you outside of school hours. In the event it is necessary that your child take or have medication available at school, the parents/guardians must provide a signed written consent for the child to be given medication at school. A consent form is available at the school health office or HPS Health Services online at <https://www.dusters.org/> under the District tab. If your child has asthma

or diabetes and is capable of self-managing his or her health condition, contact the health office to develop a self-management plan.

Medications must be provided to the school by the parent/guardian in the pharmacy-labeled or manufacturer-labeled bottle. Repackaged medications will not be accepted. Cough drops are available in the office for all students. We do not encourage students to bring cough drops from home but if they do, parents must provide a note giving permission.

Specific health protocols, procedures, and guidance information are available on the district website.

School Health Screening

Students are screened for vision, hearing, dental defects, height, and weight. Students entering the Student Assistance Process at any grade level, and those about whom health concerns are identified to the school nurse may also be screened. Parents who do not wish their child to participate in the school screening program must communicate this in writing to the school health office at the start of the school year. Because Nebraska statutes require school-age screening, parents who remove their child from the screening program must submit findings from an alternate medical provider to the school by December 1.

Physical and Visual Examination

Evidence of a physical examination and a visual evaluation is required prior to enrollment for all students transferring from out of state. A physical examination is also required prior to entrance into the seventh grade and prior to playing sports. The physical examination is to be completed by a physician, a physician's assistant, or an advanced practice registered nurse; the visual evaluation is to be completed by any of the foregoing or an optometrist. A parent or guardian who objects to the physical examination and/or visual evaluation may submit a written statement of refusal for his or her child. Waiver forms are available in the school health office. Additional physical examination requirements exist for students participating in athletic participation.

Immunizations

Students must show proof of immunization. A student who does not comply with the immunization requirements will not be permitted to continue in school. Students with medical conditions or sincerely held religious beliefs which do not allow immunizations must complete a waiver statement or affidavit. Forms are available in school health offices. Unimmunized students will be excluded from school in the event of a disease outbreak.

Birth Certificate Requirements

State law requires that a certified copy of a student's birth certificate be provided within 30 days of enrollment of a student in school for the first time. You may obtain a certified copy from the Bureau of Vital Statistics in the state in which your child was born. Assistance in obtaining birth certificates may be obtained from Health Records Management, P.O. Box 95065, Lincoln, NE 68509-5065. There is a fee per certificate.

Please note that the document parents receive from the hospital looks like a birth certificate, but it is not a certified copy. A certified copy has the raised seal of the State of Nebraska on it and is signed by the Director of Vital Statistics.

If a birth certificate is unavailable, other reliable proof of a student's identity may be used. These documents could include naturalization or immigration documents showing date of birth or official hospital birth records, a passport, or a translation of a birth certificate from another country. The documents must be accompanied by an affidavit explaining the inability to produce a copy of the birth certificate.

Student Transportation

Transportation to and from school is provided to students in accordance with law and established Board policy, procedures, and guidelines. Students may also be transported on field trips and when participating in school activities. Students are expected to follow the behavioral expectations for riding school buses. Consequences for school bus misconduct may include restriction or suspension of bus privileges and other disciplinary measures, up to and including expulsion from school. Parents may access the transportation rules, form, and schedule via the district website. A transportation permission form is included in the handbook signatures page.

Student Conduct

Student conduct rules are established to maintain a school atmosphere which is conducive to learning, to aid student development, to further school purposes, and to prevent interference with the educational process.

Students are not to engage in conduct which causes or which creates a reasonable likelihood that it will cause a substantial disruption in or material interference with any school function, activity, or purpose, or interfere with the health, safety, well-being, or rights of other students, staff, or visitors. Violations of the rules will result in disciplinary action according to Board Policy 5101 Student Discipline, which is included in the Appendix. For the media center to best serve the needs of all, students will be expected to follow guidelines and procedures established by the media staff.

Checkout Procedures – Media center materials have a bar code which needs to be scanned at the circulation desk by a staff member. Students may check out a maximum of two items. Books are checked out for two weeks. Audio/Visual materials and magazines may be checked out for one week. Audio/Visual Equipment may be checked out for one day only.

Additional Notice Concerning Directory Information

The district's policy is for education records to be kept confidential except as permitted by the FERPA law, and the district does not approve any practice which involves an unauthorized disclosure of education records. In

some courses student work may be displayed or made available to others. Also, some teachers may have persons other than the teacher or school staff, such as volunteers or fellow students, assist with the task of grading student work and returning graded work to students. The District designates such student work as directory information and as non-education records. Each parent and eligible student shall be presumed to have accepted this designation in the absence of the parent or eligible student giving notification to the District in writing in the manner set forth above pertaining to the designation of directory information. Consent will be presumed to have been given in the absence of such a notification from the parent or eligible student.

Notice Concerning Designation of Law Enforcement Unit

The District designates the Holdrege Police Department as the District's "law enforcement unit" for purposes of (1) enforcing any and all federal, state or local law, (2) maintaining the physical security and safety of the schools in the District, and (3) maintaining safe and drug free schools.

School Meal Program

Holdrege Public Schools participate in the National School Lunch and Breakfast Programs. Board Policy 3571 Meal Charge Policy is included in the Appendix.

Holdrege Public Schools use an automated system which requires each student to have a pin number. This system requires money to be in the account in order to purchase a meal or ala carte items. It is the responsibility of the parent or guardian to keep a positive balance in the account.

Holdrege Public Schools offer online payments through Infinite Campus. Parents or guardians can request a user name and password from the school to go online to check account balances or make payments to the student's account. Payments can be made by electronic check using a bank routing number and account information. Payments can also be made using credit cards or PayPal. Parents or guardians can print a receipt and an emailed notification will be sent confirming the transaction. Cash or check payments are also accepted at each school office.

At the start of each school year, a letter is sent to each student household which includes an application for free or reduced price meals. Please complete the form and return it as soon as possible to the school or Central Office. Benefits from the previous school year will carry over for the first thirty days of the current school year. Any charges incurred from that point until a new application is approved are the responsibility of the parent or guardian. Families whose applications are not approved for free meals will need to send money to the school or log on to Infinite Campus to deposit money into the account. An application for free or reduced price meals may be completed anytime during the school year if there is a change in income or household size. All free or reduced price applications are kept confidential.

Each school will notify the student, parent, or guardian that the balance is getting low by sending a note, an automated phone call, an email, or ask the student to contact the parent or guardian. If the balance becomes negative, no further regular breakfasts or lunches will be offered. Rather, an alternate meal will be provided to the student as approved by the Nebraska Department of Education Nutrition Services or a sack lunch may be brought from home. We request that food brought from home have nutritional value and should not contain fast food, soda pop, or energy drinks. Ala carte purchases will be prohibited if the student does not have money in their account.

Unpaid meal charges may be carried over at the end of the school year as a delinquent debt and the District shall undertake reasonable collection efforts to collect unpaid meal charges classified as delinquent debt, pursuant to and in compliance with state and federal law. The District shall maintain records of its collection efforts and, once delinquent meal charges are converted to bad debt, its documentation establishing and handling of the bad debt.

At the end of the school year, if the student is no longer attending school, moves out of the district, or becomes eligible for free meals, the parent or guardian may request reimbursement of any balance left on the account or can have the remaining balance transferred to another student's account. Funds remaining on account for students returning the following year will be left on the account for the next school year.

Holdrege Public Schools Extracurricular Activities Participant Drug Testing Program

With respect to the parameters of this program, please understand that should a direct conflict occur, state or federal law and Board policies/regulations will control.

Statement of Need and Purpose

Recognizing that observed and suspected use of alcohol and/or illicit drugs by Holdrege High School students is a serious concern, this program of deterrence is a proactive approach to a truly drug free school. Likewise, students using alcohol and/or illicit drugs pose a threat to their own safety, as well as to the safety of other students. The purpose of this program is as follows:

- to provide for the safety of all students;
- to undermine the effects of peer pressure by providing a legitimate reason for students to refuse to use alcohol and/or illicit drugs;
- to encourage and assist students who use alcohol and/or illicit drugs to seek help and participate in substance abuse programs;
- and to prevent the impact alcohol and illicit drugs have on the learning centers of the brain, allowing students to achieve their full academic potential.

Supporting Data

Random urine drug testing of students is legal as determined by the United States Supreme Court in the case of *Vernonia School District 47J (Oregon) v. Wayne and Judy Acton and Pottawatomie v. Earls*.

Definitions

Extracurricular Activities – Includes sports and activities offered by Holdrege Public Schools.

Vendor – The medical office or company selected by the administration to carry out toxicology lab work.

Designated Official – The individual(s) that oversees the HPS drug testing program.

Illicit Substance – A drug classified by the Drug Enforcement Administration (DEA) as being available only by prescription from a physician or classified as being controlled and having no therapeutic use.

Banned Substance – A substance defined by school policy as being banned from use by students.

Illicit or Banned Substances – For the purpose of this program, the following drug classes, substances, or their metabolites that can be tested for are considered illicit or banned for students: Amphetamine, Barbiturates, Buprenorphine, Benzodiazepines, Cocaine, Ethyl Glucuronide (Alcohol), Fentanyl, Methadone, Methamphetamine, Methylenedioxymethamphetamine (MDMA/Ecstasy), Nicotine, Opiates, Oxycodone, Phencyclidine, Propoxyphene, Tetrahydrocannabinol (THC/Marijuana), and Tricyclic Antidepressant.

Student Participant – Any Holdrege High School student (Grades 9-12) participating in a sport or activity offered by HPS that is sanctioned by the Nebraska School Activities Association (NSAA).

SAMHSA – The Substance Abuse and Mental Health Services Administration; a governmental agency that certifies toxicology laboratories that perform drug testing following strict guidelines and constant quality assurance programs.

Quantitative Levels – The measurement levels of a specific chemical in the urine reported usually in nanograms per milliliter (ng/ml).

Adulterant/Adulteration – Any attempt to alter the outcome of a urine drug test by adding a substance to the sample, attempting to switch the sample, or otherwise interfere with the detection of illicit or banned substances in the urine, or purposefully over hydrating oneself in an attempt to dilute the urine to decrease possible detection of illicit or banned substances.

Procedures

The procedures for initial, random, and follow up drug testing of Holdrege High School students (Grades 9-12) participating in Nebraska School Activities Association (NSAA) sanctioned extracurricular sports and activities is accomplished in conjunction with an independent drug testing vendor selected by the administration.

Eligibility for Random Testing – Holdrege High School students (Grades 9-12) participating in a sport or activity offered by HPS that is sanctioned by the Nebraska School Activities Association (NSAA) are eligible for random testing.

To maintain confidentiality and to maintain the integrity of the randomness of this program, students eligible for testing will be identified by a unique personal identifier (number) that does not make the student known to persons other than school officials who are directly involved in the testing program. The number will be known only to the Activities Director.

Informed Consent for Testing – At the time the student becomes a sport/activity participant, whether at the beginning of the school year or upon later enrollment (if after the beginning of the school year), the student and parent/guardian will complete and sign the *Extracurricular Activities Participant Drug Testing Program Informed Consent Agreement*. No student may participate in a sport/activity until this form is properly executed and on file with the school.

Urine Drug Testing Frequency – Student sport/activity participants shall be subject to random monthly urine testing for alcohol and/or illicit drugs for the entire school year once the informed consent for testing has been submitted.

Testing Pool – Student sport/activity participants will remain in the testing pool through the entire school year subject to submission of a *Revocation of Participation in Drug Testing Program and Withdrawal from Sports/Activities Participation*. A student electing to drop out of the testing pool is ineligible for participation in any and all sport or activity offered by HPS that is sanctioned by the Nebraska School Activities Association (NSAA) for the remainder of the school year.

Urine Specimen Collection – Any student in the testing pool selected randomly for urine drug testing who is not in school on the day of testing will be tested at the next available testing time. Any student selected for urine drug testing that does not provide an adequate urine specimen at the testing time will be unable to participate until the proper specimen is provided.

Confidentiality of Results

The testing collection process will be conducted in a manner that protect student privacy, guards against tampered specimens, and ensures an accurate chain of custody of the specimen. All urine specimen test results are considered confidential information and will be handled accordingly.

Random Selection of Students in Testing Pool – Once provided a list of testing pool identification numbers, a Southwest Conference school administrator outside of Holdrege Public Schools will provide 20 numbers on a monthly basis utilizing a randomizing protocol. Monthly, a day and time will be selected to collect urine specimens. The schedule will not follow any recognizable pattern. The selected identification numbers will be given to the designated official, who will arrange for these students to report to the collection area.

Collection of Urine Specimens – The designated official will oversee the collection of urine specimens as outline in the procedures. Students will be given as much privacy as possible in the obtaining of the specimen.

Testing of Urine Specimens - The specimens tested for the specified illicit or banned substances will give results within 5 minutes. Tests will be collected in a Tox Cup. Tests performed by Holdrege Public Schools will provide results for illicit and banned substances as defined.

In the event a cup tests with a non-negative, there are 3 options after notification to parents:

1. The results can be accepted and the applicable suspension can begin immediately.
2. Another cup can be administered the same day at the request of parents/guardian. The cost shall be the responsibility of the parents/guardian. If results confirm the first test, the applicable suspension will begin.
3. Results can be sent in for toxicology laboratory testing at the request of parents/guardian. The cost shall be the responsibility of the parents/guardian unless the results come back negative. The applicable suspension will begin upon receiving the results of the labs plus the processing time of receiving results.

Reporting of Random Urine Test Results by Vendor – The vendor will certify all urine drug screens as negative or positive. Positive findings will be reported by telephone or email in a confidential manner to the designated official.

Statistical Reporting and Confidentiality of Urine Drug Test Results – The vendor may not release any statistics on the rate of positive drug tests to any person, organization, news publication, or media without expressed written consent of Holdrege Public Schools. However, upon request by the designated official, the vendor will provide an annual report showing the number of tests performed, rate of positive and negative tests, and what substances were found in the positive urine specimens.

Procedures in the Event of a Positive Urine Drug Test Result

Whenever a student's test result indicates the presence of illegal drugs or banned substances or adulteration, the following will occur after notification of the parent:

1. The designated official will notify a parent/guardian first, then the student of any positive results. The designated official may keep all test results for a period up to one year.
2. If the parent/guardian wishes to contest the results, they may request that the designated official immediately issue another cup to confirm results at the expense of the parent/guardian. Alternatively, the parent/guardian may request that the designated official arrange for the split portion of the specimen to be submitted to a laboratory for reconfirmation at the expense of the parent/guardian. Such a request must be made at the time of the notification.
3. After a positive result, the student of the positive result will be put into the testing pool for the remainder of that school year. The student will provide a sample each month along with the random testing group.
4. Violations defined in Board Policy 5103 Extracurricular Activity will be combined in total with positive test results, for example, if a student has a drug and alcohol violation prior to a first positive result, it will be considered as a second violation/second positive result.

First Positive Result – The student may not attend any school activities for two weeks. The student will miss two weeks of contests, including practices/rehearsals, beginning on the day of the positive result, when the student admits to guilt, or when an investigation by the Principal, Activities Director, and/or Coach determines the student's guilt. The penalty of missing two weeks of contests, including practices/rehearsals, carries over from sport/activity to sport/activity and from year to year, for example, if a student participating in a fall sport has a positive test result after the season has ended, he/she will miss the first two weeks of competition, including practices/rehearsals, in the next sport/activity they go out for, or the first two weeks of competition in the subsequent school year if they are a one-sport athlete.

Second Positive Result – The student may not attend any school sport/activity for five weeks. The student misses five weeks of contests, including practices/rehearsals, before being eligible to participate (may overlap into the next activity), for example, if a student has a positive test result as a freshman and has another positive test result as a senior, it will be a second offense suspension.

Third Positive Result – The student will be suspended from all school sports/activities for the remainder of their high school career. Students may regain eligibility after a minimum eight week suspension in addition to successful completion of an HPS approved substance abuse treatment program. The student will remain on the testing schedule each month for the remainder of their high school career.

Self-Report – A student who self-reports, prior to providing a urine sample will comply with the requirements for a First Positive Result, except that there will be only one week of forfeiture of all sports/activities. The week forfeiture begins on the day of self-report. Self-reports may be used as a first offense only, subsequent positives following a self-report will continue to actions stated in Second/Third Positive Result. A student may only self-report one time as a Holdrege High School student, regardless of any lapses in enrollment.

Prescription Drug Positive – A parent/guardian must submit the legal prescription for any prescription drug for which their student tests positive. Upon receipt and recognition of this document, the suspension from sports/activities will be lifted and no assessment or intervention will be required. A student that is determined to have used a prescription drug without provision of a legal prescription in his/her name will be given a positive test result.

Non-Punitive Nature of Program

Students enrolled in curricular classes related to a specific sport or activity will not be penalized in grading, but will miss competitive events if suspended from sports/activities. An alternative assignment will be substituted for participation in the competitive event if such event results in a grade.

The results of drug tests pursuant to this program will not be documented in any student's academic records.

Meal Charge Policy

It is the policy of the District to comply with the National School Lunch Program and School Breakfast Program.

Student Eligibility

Families of students who may be eligible for free or reduced price school meals should submit an application to determine their eligibility. Applications are mailed to each student household at the start of the school year and are available at each school office and Central Office. As long as an application is submitted on or after July 1, the application will be considered current for the new school year. A student may become eligible for free or reduced meals at any time during the school year if the household experiences a change in financial circumstances or household size and a new application is approved.

Meal Account Balances

The District will ensure that families can check their meal account balances online or contact the school directly or Central Office. The District will ensure that at least one form of meal account payment is free of charge.

The District encourages families to prepay for meals. Students and families may also add funds during the school day. Any balance remaining in an account shall carry over into the next month. Households with funds remaining in their account at the end of the school year may request a refund or carry over funds to the next school year. When a student leaves the District or graduates, the District shall attempt to contact the student's household to return any funds remaining in the student's meal account.

Each school will notify the student, parent, or guardian that the balance is getting low by sending a note, an automated phone call, an email, or ask the student to contact the parent or guardian. If the balance becomes negative, no further regular breakfasts or lunches will be offered. Rather an alternate meal will be provided to the student as approved by the Nebraska Department of Education Nutrition Services or a sack lunch may be brought from home. We request that food brought from home have nutritional value and should not contain fast food, soda pop, or energy drinks. Ala carte purchases will be prohibited if the student does not have money in their account.

Unpaid meal charges may be carried over at the end of the school year as a delinquent debt and the District shall undertake reasonable collection efforts to collect unpaid meal charges classified as delinquent debt, pursuant to and in compliance with state and federal law. The District shall maintain records of its collection efforts and, once delinquent meal charges are converted to bad debt, its documentation establishing and handling of the bad debt.

Student Confidentiality

The District will disclose individual student eligibility information only to those persons (and organizations) that require the information in order to carry out an activity specifically authorized by the National School Lunch Act, subject to applicable legal exceptions.

The District shall not use or implement any colored or coded meal cards, tickets, tokens, or other methods of payment that would overtly identify a student as being eligible for free or reduced price meals.

Distribution Annually

This policy shall be provided in writing to all students' households at the start of each school year and to households transferring to the District during the school year.

This policy shall also be provided annually to District staff members responsible for the enforcement of this policy, including food service professionals.

The Superintendent or the Superintendent's designee shall maintain documentation of the annual distribution of this policy to students' households and District staff.

StudentsFull-Time and Part-Time EnrollmentFull-Time Enrollment

Students must be enrolled in Holdrege Public Schools on a full-time basis. Full-time basis is defined as attending classes for the full instructional day within the public school system.

Exceptions are permitted only for:

1. enrolled students attending another state accredited institution such as a vocational-technical school or a college or university for school credit;
2. enrolled students taking the limited number of credits needed to stay on pace for graduation with the assigned cohort group;
3. enrolled students in need of modified school attendance as an accommodation for a disability or similar unique circumstance;
4. enrolled students receiving special education services where the student's IEP requires a modified schedule, or non-enrolled students receiving special education services or other legally mandated services required to be provided to eligible resident children under state and federal laws and regulations;
5. students from other school districts participating in programs offered by the District pursuant to an interlocal agreement or other arrangement approved by the School Board; and
6. non-public school students in accordance with the policies and procedures set forth in this policy.

Part-Time Enrollment of Non-Public School Students

The School Board shall allow the part-time enrollment of students who are residents of the school district and who are also enrolled in a private, denominational, or parochial school or in a school which elects pursuant to section 79-1601 not to meet accreditation or approval requirements. Such students are referred to herein as "non-public school students."

The School Board establishes the following guiding principles for enrollment of non-public school students:

1. The primary school for a non-public school student is the student's private, denominational, parochial or home school.
2. Enrollment of a non-public school student in Holdrege Public Schools is allowed for the purpose of providing enhanced educational opportunities not otherwise available to the non-public school student. It is not to supplant programming of the student's primary school.
3. Non-public school students are not to be given priority over full-time students.
4. Non-public school students are to be enrolled only in programs or courses that are educationally appropriate for the student.
5. Enrollment of non-public school students is not to negatively affect the educational services to be provided to full-time students.

The School Board establishes the following specific policies and procedures for enrollment of

non-public school students. In the event the specific policies and procedures require interpretation or do not fully resolve an issue, the above established guiding principles are to be considered.

A. Non-Public School Student Enrollment Request Procedures.

1. Request to Enroll. Parent or guardian must contact the Superintendent's office during regular office hours and provide information regarding the request to enroll.
2. Deadline for Requests to Enroll. The request must be received by August 1st preceding the school year the student wishes to enroll.
 - a. Change of Residence Exception: The request deadline for a student who becomes a resident of the District after the school year has commenced is: 20 calendar days after the student becomes a resident of the District. The Superintendent may delay enrollment until the next following quarter or semester starts, or at such other time as determined to be educationally appropriate.
 - b. High School Course Exception: The request deadline for a student who desires to enroll in a second semester high school course is December 1st.
3. Action on Requests to Enroll. The Superintendent will review the request and will notify the parent of the approval or denial of the request within 2 weeks.
4. Annual Applications. Part-time enrollment is determined annually. There will be no guarantee that enrollment will be continued from one year to the next.

B. Non-Public School Student Admission

1. Admission Requirements. Students must meet the normal admission requirements. This include the requirements that the student: be a resident of the District, be of school attendance age and not have graduated or have received a GED.
2. Admission Process. Students must complete the normal enrollment process and forms required by the District and/or the building for enrollment of all children. This includes the requirements relating to: birth certificates, immunizations, physical examinations, and visual evaluations.

C. Non-Public School Student Enrollment Standards

1. Maximum Enrollment. Students may not enroll in more than 4 middle school or high school courses during any one semester. Elementary students may not enroll in programming of greater than 90 minutes of instruction each day.
2. Capacity Limits. Enrollment will be subject to capacity limits. Any grade level, program, or course which has been determined to be at capacity for option enrollment purposes will not ordinarily be available for non-public school students.

3. Integrated Courses. Students must meet prerequisite requirements to be enrolled in a course by appropriate credits earned through an accredited program. The principal may on a discretionary basis allow prerequisite requirements to be satisfied where the student provides reasonable indications that the academic criteria have been met, such as results from achievement tests or other indications of adequate preparation.
4. Educationally Appropriate Programs and Courses. Students will not be allowed to enroll in programs or courses, which the school administration determines to not be educationally appropriate for the student. Determination of whether a program or course is educationally appropriate will be made based on the standards the District uses for making academic placement decisions.
5. Selection of Courses. Subject to Paragraphs 1 through 4 of this Paragraph C, and all other applicable provisions of this Policy, non-public school students may select their courses.

D. Non-Public School Student Policies

1. General Standard. Non-public school students who are enrolled part-time are to be subject to the same standards as full-time enrolled students except where appropriate to reflect their part-time status.
2. No Partial Part-Time Enrollment. Students must apply for enrollment and attend the entire school year for which enrollment is made or, for high school courses, for the full length of the course. Once enrolled, part-time students will be required to participate in all activities, programs, and tests related to the program or course for which the student is enrolled, including as applicable State or District-wide assessments, as full-time students.
3. Student Conduct Policies. Students enrolled on a part-time basis shall be required to follow all school policies that apply to other students at any time the part-time student is present on school grounds or at a school-sponsored activity or athletic event. This includes the District's student conduct policies. Students enrolled on a part-time basis shall be subject to discipline, including suspension or expulsion, for violation of student conduct rules.
4. Attendance. Students enrolled on a part-time basis are not exempt from the compulsory attendance laws or from the District's attendance policies. Students who engage in excessive absenteeism as defined in Board policy are to be reported under the truancy laws.
5. Presence on School Grounds. Students enrolled on a part-time basis are to be present on school grounds during the school day only at the times required for their attendance in the program or course in which they are enrolled. Exceptions may be made in the discretion of the principal or the principal's designee. Students must sign in and out of the school by following the building level procedure. Students are responsible for being aware of any changes in the school schedule during inclement weather or for other reasons.

6. Transportation. Students enrolled on a part-time basis are not entitled to transportation or transportation reimbursement, unless otherwise required by law. Full-time students will be given first consideration for parking on the high school campus.
7. Academic Honors. Students enrolled on a part-time basis will not be eligible to graduate or receive a diploma from the District or receive academic honors (for example, class rank and honor roll) except to the extent the student meets all requirements of the District's policies for such, including attainment of minimum credits and semesters of attendance.
8. Extracurricular Activities. Any student who is a resident of the District and who is enrolled in a school which elects pursuant to section 79-1601 not to meet accreditation or approval requirements may participate in any of the District's extracurricular activity programs to the same extent and subject to the same requirements, conditions, and procedures as a full-time student in the District. The District's Activities Director will coordinate with the student's parent or guardian to secure assurances of compliance with these expectations. Any student covered by this subsection must enroll in five credit hours through the District in any semester. There shall be no preference given to any student participating in any extracurricular activity based off their status as a full-time or part-time student. Part-time students will be expected to comply with the same or similar expectations as full-time students to participate in any activity, including team rules. Participation in activities that are subject to the bylaws of the Nebraska School Activities Association (NSAA) will be limited to those students who meet the NSAA bylaws.

StudentsStudent AttendanceAttendance Policy and Excessive Absenteeism

Regular and punctual student attendance is required. The administration is responsible for developing further attendance rules and regulations, and all staff are expected to implement this policy and administrative rules and regulations to encourage regular and punctual student attendance. The Principals and teachers are required to maintain an accurate record of student attendance.

A. Attendance and Absences.

1. Circumstances of Absences – Definitions. The circumstances for all absences from school will be identified as School Excused or Not School Excused. Absences should be cleared through the Principal's office in advance whenever possible. All absences, except for illness and/or death in the family, require advance approval.
 - a. **School Excused.** Any of the following circumstances that lead to an absence will be identified as a *School Excused* absence, provided the required attendance procedures have been followed:
 - (1) Impossible or impracticable barriers outside the control of the parent or child prevent a student from attending school. The parent must provide the school with documentation to demonstrate the absence was beyond the control of the parent or child. This could include, but is not limited to documented illness or medical appointments, court, death of a family member, or suspension.
 - (2) Other absences as determined by the principal or the principal's designee.
 - b. Not School Excused. Absences that are not school excused may result in a report to the county attorney and may be classified as follows:
 - (1) Parent acknowledged absences are those in which the parent communicated with the school in the prescribed manner that the child is absent and is the parent's responsibility for the extent of the school day. This includes, but is not limited to, illness and vacations.
 - (2) Other absences are those in which the parent has not communicated a reason for the student's absence.

2. Absence Procedure. In its Student Information System, the District may identify many different codes that provide greater definition to the circumstances of a child's absence, but all of the codes need to be identified to parents and students as fitting into one of the above defined absence circumstances.

A student will not be allowed to enter class after an absence until an admit slip, based upon a written or verbal parental excuse, is issued by the Principal's office.

Two school days will be allowed to make up work for each day missed, with a maximum of 10 days allowed to make up work.

3. Mandatory Ages of Attendance. A child is of mandatory age if the child will reach age 6 prior to January 1 of the then-current school year and has not reached 18 years of age.

Exceptions for Younger Students. Attendance is not mandatory for a child who has reached 6 years of age prior to January 1 of the then-current school year, but will not reach age 7 prior to January 1 of such school year, if the child's parent or guardian has signed and filed with the school district in which the child resides an affidavit stating either: (1) that the child is participating in an education program that the parent or guardian believes will prepare the child to enter grade one for the following school year; or (2) that the parent or guardian intends for the child to participate in a school which has elected or will elect pursuant to law not to meet accreditation or approval requirements and the parent or guardian intends to provide the Commissioner of Education with a statement pursuant to section 79-1601(3) on or before the child's seventh birthday.

Exceptions for Older Students. Attendance is also not mandatory for a child who: (1) has obtained a high school diploma by meeting statutory graduation requirements; (2) has completed the program of instruction offered by a school which elects pursuant to law not to meet accreditation or approval requirements; or (3) has reached the age of 16 years and has been withdrawn from school in the manner prescribed by law.

Early Withdrawal for Students Enrolled in Accredited or Approved Schools. A person who has legal or actual charge or control of a child who is at least 16 but less than 18 years of age may withdraw such child from school before graduation and be exempt from the mandatory attendance requirements if an exit interview is conducted and a withdrawal form is signed.

Exit Interview. The process is initiated by a person who has legal or actual charge or control of the child submitting a withdrawal form. The form is to be as prescribed by the Commissioner of Education. Upon submission of the form, the Superintendent or Superintendent's designee shall set a time and place for an exit interview if the child is enrolled in Holdrege Public Schools or resides in the

Holdrege Public School District and is enrolled in a private, denominational, or parochial school.

The exit interview shall be personally attended by:

- The child, unless the withdrawal is being requested due to an illness of the child making attendance at the exit interview impossible or impracticable;
- the person who has legal or actual charge or control of the child who requested the exit interview;
- the Superintendent or Superintendent's designee;
- the child's principal or the principal's designee if the child at the time of the exit interview is enrolled in a school operated by the school district; and
- any other person requested by any of the required parties who agrees to attend the exit interview and is available at the time designated for the exit interview which may include, for example, other school personnel or the child's principal if the child is enrolled in a private school.

At the exit interview, the person making the written request must present evidence that (a) the person has legal or actual charge or control of the child and (b) the child would be withdrawing due to either:

- financial hardships requiring the child to be employed to support the child's family or one or more dependents of the child, or
- an illness of the child making attendance impossible or impracticable.

The Superintendent or Superintendent's designee shall identify all known alternative educational opportunities, including vocational courses of study, that are available to the child in the school district and how withdrawing from school is likely to reduce potential future earnings for the child and increase the likelihood of the child being unemployed in the future. Any other relevant information may be presented and discussed by any of the parties in attendance.

At the conclusion of the exit interview, the person making the written request may sign a withdrawal form provided by the school district agreeing to the withdrawal of the child OR may rescind the written request for the withdrawal.

Withdrawal Form. Any withdrawal form signed by the person making the written request shall be valid only if:

- the child also signs the form, unless the withdrawal is being requested due to an illness of the child making attendance at the exit interview impossible or impracticable, and
- the Superintendent or Superintendent's designee signs the form acknowledging that the interview was held, the required information was provided and discussed at the interview, and, in the opinion of the Superintendent or Superintendent's designee, the person making the written request does in fact have legal or actual charge or control of the

child and the child is experiencing either (i) financial hardship, or (ii) an illness making attendance impossible or impracticable.

Early Withdrawal for Students Enrolled in an Exempt School (Home Schools). A person who has legal or actual charge or control of a child who is at least 16 but less than 18 years of age may withdraw such child from school before graduation and be exempt from the mandatory attendance requirements if such child has been enrolled in a school that elects not to meet the accreditation or approval requirements by filing with the State Department of Education a signed notarized release on a form prescribed by the Commissioner of Education.

4. Reporting and Responding to Excessive Absenteeism. Any administrator, teacher, or member of the board of education who knows of any failure on the part of any child of mandatory school attendance age to attend school regularly without lawful reason, shall within three days report such violation to the superintendent or such person(s) who the superintendent designates to be the attendance officer (hereafter, "attendance officer"). The attendance officer shall immediately cause an investigation into any such report to be made. The attendance officer shall also investigate any case when of his or her personal knowledge, or by report or complaint from any resident of the district, the attendance officer believes there is a violation of the compulsory attendance laws. The school shall render all services in its power to compel such child to attend some public, private, denominational, or parochial school, which the person having control of the child shall designate, in an attempt to address the problem of excessive absenteeism. Such services shall include, as appropriate, the services listed below under "Excessive Absenteeism" and "Reporting Excessive Absenteeism."
5. Excessive Absenteeism. Students who accumulate five (5) unexcused absences in a quarter shall be deemed to have "excessive absences." Such absences shall be determined on a per day basis for elementary students and on a per class basis for secondary students. When a student has excessive absences, the following procedures shall be implemented:
 - a. Verbal or written communication by school officials with the person or persons who have legal or actual charge or control of any child; and
 - b. One or more meetings between the school (a school attendance officer, a school administrator or his or her designee, and/or a social worker), the child's parent or guardian, and the child, when appropriate, to address the barriers to attendance. The result of the meeting or meetings shall be to develop a collaborative plan to reduce barriers identified to improve regular attendance. The plan shall consider, but not be limited to:
 - (i) Illness related to physical or behavioral health of the child.
 - (ii) Educational counseling;
 - (iii) Educational evaluation;

- (iv) Referral to community agencies for economic services;
- (v) Family or individual counseling; and
- (vi) Assisting the family in working with other community services;
- (vii) Utilization of Strategic Targeted Attendance Reporting System (STARS) for students with habitual absenteeism.

If the parent/guardian refuses to participate in such meeting, the principal shall place documentation of such refusal in the child's attendance records.

6. Reporting Excessive Absenteeism to the County Attorney.

The school may report to the county attorney of the county in which the person resides when the school has documented the efforts to address excessive absences, the collaborative plan to reduce barriers identified to improve regular attendance has not been successful, and the student has accumulated more than twenty (20) absences per year. The school shall notify the child's family in writing prior to referring the child to the county attorney. Illness that makes attendance impossible or impracticable shall not be the basis for referral to the county attorney. A report to the county attorney may also be made when a student otherwise accrues excessive absences as herein defined.

StudentsStudent Discipline

- A. Development of Uniform Discipline System. It shall be the responsibility of the Superintendent to develop and maintain a system of uniform discipline. The discipline which may be imposed includes actions which are determined to be reasonably necessary to aid the student, to further school purposes, or to prevent interference with the educational process, such as (without limitation) counseling and warning students, parent contacts and parent conferences, rearrangement of schedules, requirements that a student remain in school after regular hours to do additional work, restriction of extracurricular activity, or requirements that a student receive counseling upon written consent of the parent or guardian, or in-school suspension. The discipline may also include out-of-school suspension (short-term or long-term) and expulsion.

1. Short-Term Suspension: Students may be excluded by the Principal or the Principal's designee from school or any school function for a period of up to five school days (short-term suspension) on the following grounds:

- a. Conduct that constitutes grounds for expulsion, whether the conduct occurs on or off school grounds; or
- b. Other violations of rules and standards of behavior adopted by the Board of Education or the administrative or teaching staff of the school, which occur on or off school grounds, if such conduct interferes with school purposes or there is a nexus between such conduct and school.

The following process will apply to short-term suspensions:

- a. The Principal or the Principal's designee will make a reasonable investigation of the facts and circumstances. A short-term suspension will be made upon a determination that the suspension is necessary to help any student, to further school purposes, or to prevent an interference with school purposes.
- b. Prior to commencement of the short-term suspension, the student will be given oral or written notice of the charges against the student. The student will be advised of what the student is accused of having done, an explanation of the evidence the authorities have, and be afforded an opportunity to explain the student's version of the facts.
- c. Within 24 hours or such additional time as is reasonably necessary, not to exceed an additional 48 hours, following the suspension, the Principal or administrator will send a written statement to the student and the student's parent or guardian describing the student's conduct, misconduct or violation of the rule or standard and the reasons for the action taken.
- d. An opportunity will be given to the student, and the student's parent or guardian, to have a conference with the Principal or administrator ordering the short-term suspension before or at the time the student returns to school. The Principal or administrator shall determine who in addition to the parent or guardian is to attend the conference. The Principal shall

document their attempt to make a reasonable effort to hold a conference with the parent or guardian.

- e. A student who on a short-term suspension shall not be permitted to be on school grounds without the express permission of the Principal.
2. Long-Term Suspension: A long-term suspension means an exclusion from school and any school functions for a period of more than five school days but less than twenty school days. A student who on a long-term suspension shall not be permitted to be on school grounds without the express permission of the Principal. A notice will be given to the student and the parents/guardian when the Principal recommends a long-term suspension. The notice will include a description of the procedures for long-term suspension; the procedures will be those set forth in the Student Discipline Act.
3. Expulsion:
- a. Meaning of Expulsion. Expulsion means exclusion from attendance in all schools, grounds and activities of or within the system for a period not to exceed the remainder of the semester in which it took effect unless the misconduct occurred (a) within ten school days prior to the end of the first semester, in which case the expulsion shall remain in effect through the second semester, or (b) within ten school days prior to the end of the second semester, in which case the expulsion shall remain in effect for summer school and the first semester of the following school year, or (c) unless the expulsion is for conduct specified in these rules or in law as permitting or requiring a longer removal, in which case the expulsion shall remain in effect for the period specified therein. Such action may be modified or terminated by the school district at any time during the expulsion period. A student who has been expelled shall not be permitted to be on school grounds without the express permission of the Principal. A notice will be given to the student and the parents/guardian when the Principal recommends an expulsion. The notice will include a description of the procedures for expulsion; the procedures will be those set forth in the Student Discipline Act.
 - b. Suspensions Pending Hearing. When a notice of intent to discipline a student by long-term suspension, expulsion, or mandatory reassignment is filed with the superintendent, the student may be suspended by the principal until the date the long-term suspension, expulsion, or mandatory reassignment takes effect if the principal determines that the student must be suspended immediately to prevent or substantially reduce the risk of (a) interference with an educational function or school purpose or (b) a personal injury to the student himself or herself, other students, school employees, or school volunteers. If the student is suspended pending the outcome of the hearing, the student may complete classwork and homework, including, but not limited to, examinations missed during the period of suspension. During this period, the student will not be required

to attend the alternative programs for expelled students in order to complete classwork or homework.

- c. Summer Review. Any expulsion that will remain in effect during the first semester of the following school year will be automatically scheduled for review before the beginning of the school year in accordance with law.
- d. Alternative Education: Students who are expelled may be offered an alternative education program that will enable the student to continue academic work for credit toward graduation. A student will not be required to attend the alternative education program in order to complete classwork and homework. In the event an alternative education program is not provided, a conference will be held with the parent, student, the Principal or another school representative assigned by the Principal, and a representative of a community organization that assists young people or that is involved with juvenile justice to develop a plan for the student in accordance with law.
- e. Suspension of Enforcement of an Expulsion: Enforcement of an expulsion action may be suspended (i.e., “stayed”) for a period of not more than one full semester in addition to the balance of the semester in which the expulsion takes effect. As a condition of such suspended action, the student and parents will be required to sign a discipline agreement.
- f. Students Subject to Juvenile or Court Probation. Prior to the readmission to school of any student who is less than nineteen years of age and who is subject to the supervision of a juvenile probation officer or an adult probation officer pursuant to the order of the District Court, County Court, or Juvenile Court, who chooses to meet conditions of probation by attending school, and who has previously been expelled from school, the Principal or the Principal’s designee shall meet with the student’s probation officer and assist in developing conditions of probation that will provide specific guidelines for behavior and consequences for misbehavior at school (including conduct on school grounds and conduct during an educational function or event off school grounds) as well as educational objectives that must be achieved. If the guidelines, consequences, and objectives provided by the Principal or the Principal’s designee are agreed to by the probation officer and the student, and the court permits the student to return to school under the agreed to conditions, the student may be permitted to return to school. The student may with proper consent, upon such return, be evaluated by the school for possible disabilities and may be referred for evaluation for possible placement in a special education program. The student may be expelled or otherwise disciplined for subsequent conduct as provided in Board policy and state statute.
- g. Returning from Expulsion. At the conclusion of an expulsion, the District will reinstate the student and accept nonduplicative, grade-appropriate credits earned by the student during the term of expulsion from any

Nebraska accredited institution or institution accredited by one of the six regional accrediting bodies in the United States.

- h. Exception for Pre-Kindergarten through Second Grade Students. Notwithstanding the foregoing, no pre-kindergarten through second grade student may be suspended from school, unless the student brings a deadly weapon on school grounds, in a school vehicle, or to a school activity. Instead, the Principal or Principal's designee may implement alternative disciplinary measures on a case-by-case basis if a pre-kindergarten through second grade student engages in misconduct that would otherwise result in a short-term suspension. If a pre-kindergarten through second grade student brings a deadly weapon on school grounds, in a school vehicle, or to a school activity, then the student may be suspended or expelled in accordance with this Policy's disciplinary procedures.

- 4. Emergency Exclusion: A student may be excluded from school in the following circumstances:
 - a. If the student has a dangerous communicable disease transmissible through normal school contacts and poses an imminent threat to the health or safety of the school community; or
 - b. If the student's conduct presents a clear threat to the physical safety of himself, herself, or others, or is so extremely disruptive as to make temporary removal necessary to preserve the rights of other students to pursue an education.

Any emergency exclusion shall be based upon a clear factual situation warranting it and shall last no longer than is necessary to avoid the dangers described above.

If the emergency exclusion will be for five school days or less, the procedures for a short-term suspension shall be followed. If the Superintendent or his or her designee determines that an emergency exclusion shall extend beyond five days, a hearing is to be held and a final determination made within ten school days after the initial date of exclusion. Such procedures shall substantially comply with the procedures set forth in this policy for a long-term suspension or expulsion, and be modified only to the extent necessary to accomplish the hearing and determination within this shorter time period.

- 5. Other Forms of Student Discipline: Administrative and teaching personnel may also take actions regarding student behavior, other than removal of students from school, which are reasonably necessary to aid the student, further school purposes, or prevent interference with the educational process. Such actions may include, but are not limited to, counseling of students, parent conferences, rearrangement of schedules, requirements that a student remain in school after regular hours to do additional work, restriction of extracurricular activity, or requirements that a student receive counseling, psychological evaluation, or psychiatric evaluation upon the written consent of a parent or guardian to such counseling or evaluation. The actions may also include in-school suspensions. When in-school

suspensions, after-school assignments, or other disciplinary measures are assigned, the student is responsible for complying with such disciplinary measures. A failure to serve such assigned discipline as directed will serve as grounds for further discipline, up to expulsion from school.

- B. Student Conduct Expectations. Students are not to engage in conduct which causes or which creates a reasonable likelihood that it will cause a substantial disruption in or material interference with any school function, activity or purpose or interfere with the health, safety, well being or rights of other students, staff or visitors.
- C. Grounds for Short-Term Suspension, Long-Term Suspension, Expulsion or Mandatory Reassignment. The following conduct has been determined by the Board of Education to have the potential to seriously affect the health, safety or welfare of students, staff and other persons or to otherwise seriously interfere with the educational process. Such conduct constitutes grounds for long-term suspension, expulsion, or mandatory reassignment, and any other lesser forms of discipline. The conduct is subject to the consequence of long-term suspension, expulsion, or mandatory reassignment where it occurs on school grounds, in a vehicle owned, leased, or contracted by the school and being used for a school purpose or in a vehicle being driven for a school purpose by a school employee or an employee's designee, or at a school-sponsored activity or athletic event.
1. Willfully disobeying any reasonable written or oral request of a school staff member, or the voicing of disrespect to those in authority.
 2. Use of violence, force, coercion, threat, intimidation, harassment, or similar conduct in a manner that constitutes a substantial interference with school purposes or making any communication that a reasonable recipient would interpret as a serious expression of an intent to harm or cause injury to another.
 3. Willfully causing or attempting to cause substantial damage to property, stealing or attempting to steal property of substantial value, repeated damage or theft involving property, or setting or attempting to set a fire of any magnitude.
 4. Causing or attempting to cause personal injury to any person, including any school employee, school volunteer, or student. Personal injury caused by accident, self-defense, or other action undertaken on the reasonable belief that it was necessary to protect some other person shall not constitute a violation of this subdivision.
 5. Threatening or intimidating any student for the purpose of or with the intent of obtaining money or anything of value from such student or making a threat which causes or may be expected to cause a disruption to school operations.
 6. Knowingly possessing, handling, or transmitting any object or material that is ordinarily or generally considered a weapon or that has the appearance of a weapon or bringing or possessing any explosive device, including fireworks.
 7. Engaging in selling, using, possessing or dispensing of alcohol, tobacco, narcotics, drugs, controlled substance, or an inhalant; being under the influence of any of the above; possession of drug paraphernalia, or the selling, using, possessing, or dispensing of an imitation controlled substance as defined in section 28-401 of the Nebraska statutes, or material represented to be alcohol, narcotics, drugs, a controlled substance or inhalant. Tobacco means any tobacco

product (including but not limited to cigarettes, cigars, and chewing tobacco), vapor products (such as e-cigarettes), electronic nicotine delivery systems, alternative nicotine products, tobacco product look-alikes, and products intended to replicate tobacco products either by appearance or effect. Use of a controlled substance in the manner prescribed for the student by the student's physician is not a violation. The term "under the influence" has a less strict meaning than it does under criminal law; for school purposes, the term means any level of impairment and includes even the odor of alcohol or illegal substances on the breath or person of a student; also, it includes being impaired by reason of the abuse of any material used as a stimulant.

8. Public indecency or sexual conduct.
9. Engaging in bullying, which includes any ongoing pattern of physical, verbal, or electronic abuse on school grounds, in a vehicle owned, leased, or contracted by a school being used for a school purpose by a school employee or a school employee's designee, or at school-sponsored activities or school-sponsored athletic events.
10. Sexually assaulting or attempting to sexually assault any person. This conduct may result in an expulsion regardless of the time or location of the offense if a complaint alleging such conduct is filed in a court of competent jurisdiction.
11. Engaging in any activity forbidden by law which constitutes a danger to other students or interferes with school purposes. This conduct may result in an expulsion regardless of the time or location of the offense if the conduct creates or had the potential to create a substantial interference with school purposes, such as the use of the telephone or internet off-school grounds to threaten.
12. A repeated violation of any rules established by the school district or school officials if such violations constitute a substantial interference with school purposes.
13. Truancy or failure to attend assigned classes or assigned activities; or tardiness to school, assigned classes or assigned activities.
14. The use of language, written or oral, or conduct, including gestures, which is profane or abusive to students or staff members. Profane or abusive language or conduct includes, but is not limited to, that which is commonly understood and intended to be derogatory toward a group or individual based upon race, gender, disability, national origin, or religion.
15. Dressing or grooming in a manner which is dangerous to the student's health and safety or a danger to the health and safety of others or repeated violations of the student dress and grooming standards; dressing, grooming, or engaging in speech that is lewd or indecent, vulgar or plainly offensive; dressing, grooming, or engaging in speech that school officials reasonably conclude will materially and substantially disrupt the work and discipline of the school; dressing, grooming, or engaging in speech that a reasonable observer would interpret as advocating illegal drug use.
16. Willfully violating the behavioral expectations for riding school buses or vehicles.
17. A student who engages in the following conduct shall be expelled for the remainder of the school year in which it took effect if the misconduct occurs during the first semester, and if the expulsion for such conduct takes place during the second semester, the expulsion shall remain in effect for the first semester of the following school year, with the condition that such action may be modified or

terminated by the school district during the expulsion period on such terms as the administration may establish:

- a. The knowing and intentional use of force in causing or attempting to cause personal injury to a school employee, school volunteer, or student, except if caused by accident, self-defense, or on the reasonable belief that the force used was necessary to protect some other person and the extent of force used was reasonably believed to be necessary, or
 - b. The knowing and intentional possession, use, or transmission of a dangerous weapon other than a firearm.
18. Knowingly and intentionally possessing, using, or transmitting a firearm on school grounds, in a school-owned or utilized vehicle, or during an educational function or event off school grounds, or at a school-sponsored activity or athletic event. This conduct shall result in an expulsion for one calendar year. "Firearm" means a firearm as defined in 18 U.S.C. 921, as that statute existed on January 1, 1995. That statute includes the following statement: "The term 'firearm' means (a) any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; (b) the frame or receiver of any such weapon; (c) any firearm muffler or firearm silencer; or (d) any destructive device." The Superintendent may modify such one year expulsion requirement on a case-by-case basis, provided that such modification is in writing.

Bringing a firearm or other dangerous weapon to school for any reason is discouraged; however, a student will not be subject to disciplinary action if the item is brought or possessed under the following conditions:

- a. Prior written permission to bring the firearm or other dangerous weapon to school is obtained from the student's teacher, building administrator and parent.
- b. The purpose of having the firearm or other dangerous weapon in school is for a legitimate educational function.
- c. A plan for its transportation into and from the school, its storage while in the school building and how it will be displayed must be developed with the prior written approval by the teacher and building administrator. Such plan shall require that such item will be in the possession of an adult staff member at all times except for such limited time as is necessary to fulfill the educational function.
- d. The firearm or other dangerous weapon shall be in an inoperable condition while it is on school grounds.

For purposes of this policy, the term "dangerous weapon" includes any personal safety or security device (such as tasers, mace, and pepper spray). In the event that a student desires to carry or possess a personal safety or security device, the student must obtain prior approval from the building principal before bringing such device on school grounds. If a student obtains prior approval from the building principal, the student must store the device during the school day in the student's locker, in the main office, or in another

secure location designated by the building principal. A student shall not carry a personal safety or security device during the school day.

- D. Additional Student Conduct Expectations and Grounds for Discipline. The following additional student conduct expectations are established. Failure to comply with such rules is grounds for disciplinary action. When such conduct occurs on school grounds, in a vehicle owned, leased, or contracted by a school being used for a school purpose or in a vehicle being driven for a school purpose by a school employee or by his or her designee, or at a school-sponsored activity or athletic event, the conduct is grounds for long-term suspension, expulsion or mandatory reassignment.

1. Student Appearance: Students are expected to dress in a way that is appropriate for the school setting. Students should not dress in a manner that is dangerous to the health and safety of anyone or interferes with the learning environment or teaching process in our school. Following is a list of examples of attire that will not be considered appropriate, such list is not exclusive and other forms of attire deemed inappropriate by the administration may be deemed inappropriate for the school setting:
 - a. Clothing that shows an inappropriate amount of bare skin or underwear (midriffs, spaghetti straps, sagging pants) or clothing that is too tight, revealing or baggy, or tops and bottoms that do not overlap or any material that is sheer or lightweight enough to be seen through, or otherwise of an appropriate size and fit so as to be revealing or drag on the ground.
 - b. Shorts, skirts, or skorts that do not reach mid-thigh or longer.
 - c. Clothing or jewelry that advertises or promotes beer, alcohol, tobacco, or illegal drugs.
 - d. Clothing or jewelry that could be used as a weapon (chains, spiked apparel) or that would encourage “horse-play” or that would damage property (e.g. cleats).
 - e. Head wear including hats, caps, bandannas, and scarves.
 - f. Clothing or jewelry which exhibits nudity, makes sexual references or carries lewd, indecent, or vulgar double meaning.
 - g. Clothing or jewelry that is gang related.
 - h. Body piercing that is a distraction to the educational process as determined by administration.

Consideration will be made for students who wear special clothing as required by religious beliefs, disability, or to convey a particularized message protected by law. The final decision regarding attire and grooming will be made by the Principal or Superintendent. In the event a student is uncertain as to whether a particular item or method of grooming is consistent with the school’s guidelines, the student should contact the Principal for approval, and may also review such additional posting of prohibited items or grooming which may be available in the Principal’s office.

Coaches, sponsors or teachers may have additional requirements for students who are in special lab classes, students who are participants in performing groups or

students who are representing the school as part of an extracurricular activity program.

On a first offense of the dress code, the student may call home for proper apparel. If clothes cannot be brought to school, the student will be assigned to in-school suspension for the remainder of the day. Students will not be allowed to leave campus to change clothes. Continual violations of the dress code will result in more stringent disciplinary actions, up to expulsion. Further, in the event the dress code violation is determined to also violate other student conduct rules (e.g., public indecency, insubordination, expression of profanity, and the like), a first offense of the dress code may result in more stringent discipline, up to expulsion.

2. Academic Integrity.

- a. Policy Statement: Students are expected to abide by the standards of academic integrity established by their teachers and school administration. Standards of academic integrity are established in order for students to learn as much as possible from instruction, for students to be given grades which accurately reflect the student's level of learning and progress, to provide a level playing field for all students, and to develop appropriate values.

Cheating and plagiarism violate the standards of academic integrity. Sanctions will be imposed against students who engage in such conduct.

- b. Definitions: The following definitions provide a guide to the standards of academic integrity:

- (1) "Cheating" means intentionally misrepresenting the source, nature, or other conditions of academic work so as to accrue undeserved credit, or to cooperate with someone else in such misrepresentation. Such misrepresentations may, but need not necessarily, involve the work of others. Cheating includes, but is not limited to:

- (a) Tests (includes tests, quizzes and other examinations or academic performances):

- (i) Advance Information: Obtaining, reviewing or sharing copies of tests or information about a test before these are distributed for student use by the instructor. For example, a student engages in cheating if, after having taken a test, the student informs other students in a later section of the questions that appear on the test.

- (ii) Use of Unauthorized Materials: Using notes, textbooks, pre-programmed formulae in calculators, or other unauthorized material, devices or information while taking a test except as expressly permitted. For example, except for "open book" tests, a student engages in cheating if the student

- looks at personal notes or the textbook during the test.
- (iii) Use of Other Student Answers: Copying or looking at another student's answers or work, or sharing answers or work with another student, when taking a test, except as expressly permitted. For example, a student engages in cheating if the student looks at another student's paper during a test. A student also engages in cheating if the student tells another student answers during a test or while exiting the testing room, or knowingly allows another student to look at the student's answers on the test paper.
 - (iv) Use of Other Student to Take Test. Having another person take one's place for a test, or taking a test for another student, without the specific knowledge and permission of the instructor.
 - (v) Misrepresenting Need to Delay Test. Presenting false or incomplete information in order to postpone or avoid the taking of a test. For example, a student engages in cheating if the student misses class on the day of a test, claiming to be sick, when the student's real reason for missing class was because the student was not prepared for the test.
- (b) Papers (includes papers, essays, lab projects, and other similar academic work):
- i) Use of Another's Paper: Copying another student's paper, using a paper from an essay writing service, or allowing another student to copy a paper, without the specific knowledge and permission of the instructor.
 - (ii) Re-use of One's Own Papers: Using a substantial portion of a piece of work previously submitted for another course or program to meet the requirements of the present course or program without notifying the instructor to whom the work is presented.
 - (iii) Assistance from Others: Having another person assist with the paper to such an extent that the work does not truly reflect the student's work. For example, a student engages in cheating if the student has a draft essay reviewed by the student's parent or sibling, and the essay is substantially re-written by the student's parent or sibling. Assistance from home is encouraged, but the work must remain the student's.
 - (iv) Failure to Contribute to Group Projects. Accepting credit for a group project in which the student failed to contribute a fair share of the work.

- (v) Misrepresenting Need to Delay Paper. Presenting false or incomplete information in order to postpone or avoid turning in a paper when due. For example, a student engages in cheating if the student misses class on the day a paper is due, claiming to be sick, when the student's real reason for missing class was because the student had not finished the paper.
 - (c) Alteration of Assigned Grades. Any unauthorized alteration of assigned grades by a student in the teacher's grade book or the school records is a serious form of cheating.
 - (2) "Plagiarism" means to take and present as one's own a material portion of the ideas or words of another or to present as one's own an idea or work derived from an existing source without full and proper credit to the source of the ideas, words, or works. Plagiarism includes, but is not limited to:
 - (a) Failure to Credit Sources: Copying work (words, sentences, and paragraphs or illustrations or models) directly from the work of another without proper credit. Academic work frequently involves use of outside sources. To avoid plagiarism, the student must either place the work in quotations or give a citation to the outside source.
 - (b) Falsely Presenting Work as One's Own: Presenting work prepared by another in final or draft form as one's own without citing the source, such as the use of purchased research papers or use of another student's paper.
 - (3) "Contributing" to academic integrity violations means to participate in or assist another in cheating or plagiarism. It includes but is not limited to allowing another student to look at your test answers, to copy your papers or lab projects, and to fail to report a known act of cheating or plagiarism to the instructor or administration.
- c. Sanctions: The following sanctions will occur when a student engages in cheating, plagiarism, or contributing to an academic integrity offense:
- (1) Academic Sanction. The instructor will refuse to accept the student's work in which the academic integrity offense took place, assign a grade of "F" or zero for the work, and require the student to complete a test or project in place of the work within such time and under such conditions as the instructor may determine appropriate. In the event the student completes the replacement test or project at a level meeting minimum performance standards, the instructor will assign a grade which the instructor determines to be appropriate for the work.

- (2) Report to Parents and Administration. The instructor will notify the Principal of the offense and the instructor or Principal will notify the student's parents or guardian.
- (3) Student Discipline Sanctions. Academic integrity offenses are a violation of school rules. The Principal may recommend sanctions in addition to those assigned by the instructor, up to and including suspension or expulsion. Such additional sanctions will be given strong consideration where a student has engaged in serious or repeated academic integrity offense or other rule violations, and where the academic sanction is otherwise not a sufficient remedy, such as for offenses involving altering assigned grades or contributing to academic integrity violations.

3. Electronic Devices

- a. Philosophy and Purpose. The District strongly discourages students from bringing and/or using electronic devices at school. The use of electronic devices can be disruptive to the educational process and are items that are frequently lost or stolen. In order to maintain a secure and orderly learning environment, and to promote respect and courtesy regarding the use of electronic devices, the District hereby establishes the following rules and regulations governing student use of electronic devices, and procedures to address student misuse of electronic devices.
- b. Definitions.
 - (1) "Electronic devices" include, but are not limited to, cell phones, Mp3 players, iPods, personal digital assistants (PDAs), compact disc players, portable game consoles, cameras, digital scanners, lap top computers, and other electronic or battery powered instruments which transmit voice, text, or data from one person to another.
 - (2) "Sexting" means generating, sending or receiving, encouraging others to send or receive, or showing others, through an electronic device, a text message, photograph, video or other medium that:
 - (i) Displays sexual content, including erotic nudity, any display of genitalia, unclothed female breasts, or unclothed buttocks, or any sexually explicit conduct as defined at Neb. Rev. Stat. § 28-1463.02; or
 - (ii) Sexually exploits a person, whether or not such person has given consent to creation or distribution of the message, photograph or video by permitting, allowing, encouraging, disseminating, distributing, or forcing such student or other person to engage in sexually explicit, obscene or pornographic photography, films, or depictions; or,
 - (iii) Displays a sexually explicit message for sexual gratification, flirtation or provocation, or to request or arrange a sexual encounter.

c. Possession and Use of Electronic Devices.

- (1) Students are not permitted to possess or use any electronic devices during class time or during passing time except as otherwise provided by this policy. Cell phone usage is strictly prohibited during any class period; including voice usage, digital imaging, or text messaging.
- (2) Students are permitted to possess and use electronic devices before school hours, at lunch time, and after school hours, provided that the student not commit any abusive use of the device (see paragraph (d)(1). Administrators have the discretion to prohibit student possession or use of electronic devices on school grounds during these times in the event the administration determines such further restrictions are appropriate; an announcement will be given in the event of such a change in permitted use.
- (3) Electronic devices may be used during class time when specifically approved by the teacher or a school administrator in conjunction with appropriate and authorized class or school activities or events (i.e., student use of a camera during a photography class; student use of a lap top computer for a class presentation).
- (4) Students may use electronic devices during class time when authorized pursuant to an Individual Education Plan (IEP), a Section 504 Accommodation Plan, or a Health Care Plan, or pursuant to a plan developed with the student's parent when the student has a compelling need to have the device (e.g., a student whose parent is in the hospital could be allowed limited use of the cell phone for family contacts, so the family can give the student updates on the parent's condition).

d. Violations

- (1) Prohibited Use of Electronic Devices: Students shall not use electronic devices for: (a) activities which disrupt the educational environment; (b) illegal activities in violation of state or federal laws or regulations; (c) unethical activities, such as cheating on assignments or tests; (d) immoral or pornographic activities; (e) activities in violation of Board or school policies and procedures relating to student conduct and harassment; (f) recording others (photographs, videotaping, sound recording, etc.) or otherwise transmitting images and/or sounds of another person or persons without direct administrative approval and consent of the person(s) being recorded, other than recording of persons participating in school activities that are open to the public; (g) "sexting;" or (h) activities which invade the privacy of others. Such student misuses will be dealt with as serious school violations, and immediate and appropriate disciplinary action will be imposed, including, but not limited to, suspension and expulsion from school.
- (2) Disposition of Confiscated Electronic Devices: Electronic devices possessed or used in violation of this policy may be confiscated by

school personnel and returned to the student or parent/guardian at an appropriate time. If an electronic device is confiscated, the electronic device shall be taken to the school's main office to be identified, placed in a secure area, and returned to the student and/or the student's parent/guardian in a consistent and orderly way.

- (i) First Violation: Depending upon the nature of the violation and the imposition of other appropriate disciplinary action, consequences at a minimum may include a relinquishment of the electronic device to the school administration and a conference between the student and school principal or assistant principal. The electronic device shall remain in the possession of the school administration until such time as the student personally comes to the school's main office and retrieves the electronic device.
 - (ii) Second Violation: Depending upon the nature of the violation and the imposition of other appropriate disciplinary action, consequences at a minimum may include a relinquishment of the electronic device to the school administration and a conference between the student and his/her parent/guardian and the school principal or assistant principal. The electronic device shall remain in the possession of the school administration until such time as the student's parent/guardian personally comes to the school's main office and retrieves the electronic device.
 - (iii) Third Violation: Depending upon the nature of the violation and the imposition of other appropriate disciplinary action, consequences at a minimum may include a relinquishment of the electronic device to the school administration, a conference between the student and his/her parent/guardian and the school principal or assistant principal, and suspension of the student from school. The electronic device shall remain in the possession of the school administration until such time as the student's parent/guardian personally comes to the school's main office and retrieves the electronic device.
- (3) Penalties for Prohibited Use of Electronic Devices: Students who receive a "sexting" message are to report the matter to a school administrator and then delete such message from their electronic device. Students shall not participate in sexting or have any "sexting" message on their electronic devices regardless of when the message was received while on school grounds or at a school activity. Students who violate the prohibitions of this policy shall be subject to the imposition of appropriate disciplinary action, up to and including expulsion, provided that at a minimum the following penalties shall be imposed:

- (i) Students found in possession of a “sexting” message shall be subject to a one (1) day suspension from school.
 - (ii) Students who send or encourage another to send a “sexting” message shall be subject to a five (5) day suspension from school.
 - (4) Reporting to Law Enforcement: Violations of this policy regarding the prohibited use of electronic devices that may constitute a violation of federal or state laws and regulations, including, but not limited to, the Nebraska Child Protection Act or the Nebraska Child Pornography Prevention Act shall be reported to appropriate legal authorities and law enforcement.
- e. Responsibility for Electronic Devices. Students or their parents/guardians are expected to claim a confiscated electronic device within ten (10) days of the date it was relinquished. The school shall not be responsible, financially or otherwise, for any unclaimed electronic devices. By bringing such devices to school, students and parents authorize the school to dispose of unclaimed devices at the end of each semester. The District is not responsible for the security and safekeeping of students’ electronic devices and is not financially responsible for any damage, destruction, or loss of electronic devices.
- E. Inappropriate Public Displays of Affection (IPDA): Students are not to engage in inappropriate public displays of affection on school property or at school activities. Such conduct includes kissing, touching, fondling or other displays of affection that would be reasonably considered to be embarrassing or a distraction to others. Students will face the following consequences for IPDA:
 - 1. 1st Offense: Student will be confronted and directed to cease.
 - 2. 2nd Offense: Student will be confronted, directed to cease, and parents will be notified.
 - 3. 3rd Offense: Student will be suspended from school for a minimum of 1 day, and parents and student will need to meet with Administrator(s) and/or counselor.If this type of behavior continues, or if the IPDA is lewd or constitutes sexual conduct, the student could face long-term suspension or expulsion.
- F. Specific Rule Items: The following conduct may result in disciplinary action which, in the repeated violations, may result in discipline up to expulsion:
 - 1. Students are not given locker passes, restroom passes or telephone passes to leave a classroom or study hall unless special circumstances arise.
 - 2. Students in the hallway during class time must have a pass with them.
 - 3. Gum, candy, seeds, etc. are not allowed in the school building or classrooms. The pop machine is closed until after school and pop is to be drunk outside.
 - 4. Students are expected to bring all books and necessary materials to class. This includes study halls.
 - 5. Assignments for all classes are due as assigned by the teacher.
 - 6. Students are not to operate the mini-blinds or the windows.

7. Classes are ended by the teacher. Students are not to begin to pack up or leave the class until the dismissal bell has rung or the teacher has dismissed the class.
8. Students are to be in their seats and ready for class on the tardy bell.
9. Special classes such as Industrial Technology, Art, P.E., and computer courses will have other safety or clean-up rules that will be explained to students by that teacher which must be followed.
10. Students are not to bring “nuisance items” to school. A nuisance item is something that is not required for educational purposes and which would cause a distraction to the student or others.
11. Students are to stand back from the entry steps and doors in the mornings before school and at noon before the bell so that others may pass in and out of the entry doors.
12. Snow handling is prohibited.

G. Law Violations

1. Any act of a student which is a basis for expulsion and which the principal or designee knows or suspects is a violation of the Nebraska Criminal Code will be reported to law enforcement as soon as possible. Conduct to be reported for law enforcement referral includes conduct that may constitute a felony, conduct which may constitute a threat to the safety or well-being of students or others in school programs and activities, and conduct that the legal system is better equipped to address than school officials. Conduct that does not need to be reported for law enforcement referral includes typical adolescent behavior that can be addressed by school administrators without the involvement of law enforcement. In making the decision of whether to report, consideration should be given to the student’s maturity, mental capacity, and behavioral disorders, where applicable. When appropriate, it shall be the responsibility of the referring administrator to contact the student’s parent of the fact that the referral to legal authorities has been or will be made.
The foregoing reporting standards shall be reviewed annually by the school board on or before August 1 of each year, be annually reviewed in collaboration with the County Attorney each year, be distributed to each student and his or her parent or guardian at the beginning of each school year, or at the time of enrollment if during the school year, and shall be posted in conspicuous places in each school during the school year.
2. When a principal or other school official releases a minor student to a peace officer (e.g., police officer, sheriff, and all other persons with similar authority to make arrests) for the purpose of removing the minor from the school premises, the principal or other school official shall take immediate steps to notify the parent, guardian, or responsible relative of the minor regarding the release of the minor to the officer and regarding the place to which the minor is reportedly being taken, except when a minor has been taken into custody as a victim of suspected child abuse, in which case the principal or other school official shall provide the peace officer with the address and telephone number of the minor's parents or guardian.

StudentsAlternative Education Programs or Plans For Expelled Students

In the event action is being taken to expel a student from this school district, the Administration may offer the student an alternative school, class, or educational program (hereinafter referred to as an "alternative program"); or (2) the development of a plan of behavior modification, educational objects, and financial resources and community programs available to meet the behavioral and educational objects, and monthly reviews to assess the student's progress toward meeting the specified goals and objects. An expelled student may not be required to attend the alternative program.

A. ALTERNATIVE EDUCATION PROGRAM:

The Superintendent or Superintendent's designee is hereby granted the authority to arrange and plan for a student's alternative educational program, based on the available resources and student's individual circumstances.

B. EDUCATION PLAN PROGRAM:

If the administration elects not to provide an alternative education program, or if a student declines to participate in the alternative education program, the following procedures shall be followed:

- (1) A conference shall be called by a school administrator and held to assist the district in the development of a plan with the participation of a parent or a legal guardian, the student, a school representative, and a representative of either a community organization with a mission of assisting young people or a representative of an agency involved with juvenile justice.
- (2) The plan shall be in writing and adopted by a school administrator and presented to the student and the parent or legal guardian.
- (3) The plan shall:
 - (a) Specify guidelines and consequences for behaviors which have been identified as preventing the student from achieving the desired benefits from the educational opportunities provided,
 - (b) Identify educational objectives that must be achieved in order to receive credits toward graduation,
 - (c) Specify the financial resources of the community programs available to meet both the educational and behavioral objects identified, and
 - d) Require the student to attend monthly reviews in order to assess the student's progress toward meeting the specified goals and objectives.

The school district shall submit such plan on the form "Section 79-266(2) Plan" attached to this policy as Appendix "1".

Date & Participants: _____

(List parent or legal guardian, school rep., & community or agency rep.)

(a) Guidelines and Consequences for Behaviors

The student has been recommended for expulsion for conduct as specified in correspondence and memoranda recently provided to the student and the student's parents. This conduct has had the effect of preventing the student from achieving the desired benefits from the educational opportunities provided. The student is expected to conform his conduct to the school rules for which he has been recommended for expulsion and all other established school rules. Further disciplinary measures, including possible future expulsions, can result from future violations of such behavioral guidelines and expectations.

(b) Educational Objectives

In order to graduate, the student needs to receive the credits listed in Attachment "A", subject to future modifications in graduation requirements.

(c) Financial Resources and Community Programs Available

The financial resources and community programs available to meet the educational and behavioral objectives identified in this plan include school resources (e.g., upon return from the recommended expulsion, counseling with the school counselor, and meetings with the school administration and teachers) and community organizations which assist young people (e.g., civic organizations, local college and university programs, and community college programs).

(d) Monthly Reviews & Other

During the period of the expulsion, the student shall be required to attend monthly reviews with the Principal or designee to assess the student's progress toward meeting the specified goals and objectives. The student shall be responsible for contacting the named school official to schedule the monthly meetings. (Attach separate sheet for any additional information or terms of plan).

StudentsExtracurricular Activity**Section 1 Extracurricular Activity Philosophy**

Extracurricular activity programs enrich the curriculum of the school by making available a wide variety of activities in which a student can participate. Extracurricular activity programs are considered an integral part of the school's program of education that provide experiences that will help students physically, mentally and emotionally.

The element of competition and winning, though it exists, is controlled to the point it does not determine the nature or success of the program. This is considered to be educationally and psychologically sound because of the training it offers for living in a competitive society. Students are stimulated to want to win and excel, but the principles of good sportsmanship prevail at all times to enhance the educational values of contests. Participation in activities, both as a competitor and as a student spectator, is an integral part of the students' educational experiences. Such participation is a privilege that carries with it responsibilities to the school, team, student body, community and the students themselves. In their play and their conduct, students are representing all of these groups. Such experiences contribute to the knowledge, skill and emotional patterns that they possess, thereby making them better individuals and citizens.

Safety

The District's philosophy is to maintain an activities program which recognizes the importance of the safety of the participants. To ensure safety, participants are required to become fully familiar with the dangers and safety measures established for the activity in which they participate, to adhere to all safety instructions for the activity in which they participate, to inform their coach or sponsor when they are injured or have health problems that require their activities be restricted, and to exercise common-sense.

Warning for Participants and Parents

The purpose of this warning is to bring your attention to the existence of potential dangers associated with athletic injuries. Participation in any intramural or athletic activity may involve injury of some type. The severity of such injury can range from minor cuts, bruises, sprains and muscle strains to more serious injuries to the body's bones, joints, ligaments, tendons, or muscles, to catastrophic injuries to the head, neck and spinal cord. On rare occasions, injuries can be so severe as to result in total disability, paralysis or death. Even with appropriate coaching, appropriate safety instruction, appropriate protective equipment and strict observance of the rules, injuries are still a possibility.

Section 2 Extracurricular Activity Code of Conduct

Purpose of the Code of Conduct. Participation in extracurricular activities is a privilege. The privilege carries with it responsibilities to the school, team, student body, and the community. Participants are not only representing themselves, but also their school and community in all of

their actions. Others judge our school on the student participants' conduct and attitudes, and how they contribute to our school spirit and community image.

The student participants' performance and devotion to high ideals and values make their school and community proud. Consequently, participation is dependent upon adherence to this Code of Conduct and the school district's policies, procedures and rules.

Scope of the Code of Conduct.

Activities Subject to the Code of Conduct: The Code of Conduct applies to all extracurricular activities. Extracurricular activities means student activities or organizations which are supervised or administered by the school district which do not count toward graduation or grade advancement and in which participation is not otherwise required by the school.

Extracurricular activities include but are not limited to: all sports, cheerleading, dance team, Pep Club, Pep Band, vocal, band, speech, and drama, One-Act, FBLA, FCCLA, Spanish Club, Art Club, Student Council, Student Advisory Board, National Honor Society, and other school sponsored organizations and activities. The Code of Conduct also applies to participation in school sponsored activities such as school dances and royalty for such activities.

A participant means a student who participates in, has participated in, or will participate in an extracurricular activity.

When: The Code of Conduct rules apply to conduct which occurs at any time during the school year, and also includes the time frame which begins with the official starting day of the fall sport season established by the NSAA and extends to the last day of the spring sport season established by the NSAA, whether or not the student is a participant in an activity at the time of such conduct.

The rules also apply when a student is participating or scheduled to participate in an extracurricular activity that is held outside the school year or the NSAA season. For example, if an FBLA or FCCLA student plans to participate in a conference in July and commits a Code of Conduct infraction in June, the student may be suspended from participating in the conference. Conduct during the summer months may also affect a student's participation under the team selection and playing time guidelines.

Where: The Code of Conduct rules apply regardless of whether the conduct occurs on or off school grounds. If the conduct occurs on school grounds, at a school function or event, or in a school vehicle, the student may also be subject to further discipline under the general student code of conduct. A student who is suspended or expelled from school shall not be permitted to participate in activities during the period of the suspension or expulsion, and may also receive an extended activity suspension.

Grounds for Extracurricular Activity Discipline. Students who participate in extracurricular activities are expected to demonstrate cooperation, patience, pride, character, self respect, self-discipline, teamwork, sportsmanship, and respect for authority. The following conduct rules have been determined by the Board of Education to be reasonably necessary to aid students, further school purposes, and prevent interference with the educational process. Such conduct constitutes grounds for suspension from participation in extracurricular activities and grounds for other restrictions or disciplinary measures related to extracurricular activity participation:

1. Willfully disobeying any reasonable written or oral request of a school staff member, or the voicing of disrespect to those in authority.
2. Use of violence, force, coercion, threat, intimidation, bullying, harassment or similar conduct in a manner that constitutes a substantial interference with school or extracurricular activity purposes or making any communication that a reasonable person would interpret as a serious expression of an intent to harm or cause injury to another.
3. Willfully causing or attempting to cause substantial damage to property, stealing or attempting to steal property, repeated damage or theft involving property or setting or attempting to set a fire of any magnitude.
4. Causing or attempting to cause personal injury to any person, including a school employee, school volunteer, or student. Personal injury caused by accident, self-defense, or other action undertaken on the reasonable belief that it was necessary to protect another person shall not constitute a violation.
5. Threatening or intimidating any student for the purpose of, or with the intent of, obtaining money or anything of value from a student or making a threat which causes or may be expected to cause a disruption to school operations.
6. Knowingly possessing, handling, or transmitting any object or material that is ordinarily or generally considered a weapon (including personal safety or security devices, such as tasers, mace, and pepper spray) or that has the appearance of a weapon, or bringing or possessing any explosive device, including fireworks, on school grounds or at a school function or event, or in an manner that is unlawful or contrary to school activity rules.
7. Engaging in selling, using, possessing or dispensing of alcohol, tobacco, narcotics, drugs, controlled substance, or an inhalant; being under the influence of any of the above; possession of drug paraphernalia, or the selling, using, possessing, or dispensing of an imitation controlled substance as defined in section 28-401 of the Nebraska statutes, or material represented to be alcohol, narcotics, drugs, a controlled substance or inhalant. Tobacco means any tobacco product (including but not limited to cigarettes, cigars, and chewing tobacco), vapor products (such as e-cigarettes), electronic nicotine delivery systems, alternative nicotine products, tobacco product look-alikes, and products intended to replicate tobacco products either by appearance or effect. Use of a controlled substance in the manner prescribed for the student by the student's physician is not a violation. The term "under the influence" has a less strict meaning than it does under criminal law; for school purposes, the term means any level of impairment and includes even the odor of alcohol or illegal substances on the

- breath or person of a student; also, it includes being impaired by reason of the abuse of any material used as a stimulant.
8. Public indecency.
 9. Sexual assault or attempting to sexually assault any person. Engaging in sexual conduct, even if consensual, on school grounds or at a school function or event.
 10. Engaging in any activity forbidden by law which constitutes a danger to other students, interferes with school purposes or an extracurricular activity, or reflects a lack of high ideals.
 11. Repeated violation of any of the school rules.
 12. Truancy or failure to attend assigned classes or assigned activities; or tardiness to school, assigned classes or assigned activities.
 13. The use of language, written or oral, or conduct, including gestures, which is profane or abusive to a school employee, school volunteer, or student. Profane or abusive language or conduct includes, but is not limited to, that which is commonly understood and intended to be derogatory toward a group or individual based upon race, gender, national origin, or religion.
 14. Dressing or grooming in a manner which is dangerous to the student's health and safety or a danger to the health and safety of others or repeated violations of dress and grooming standards; dressing, grooming, or engaging in speech that is lewd or indecent, vulgar or plainly offensive; dressing, grooming, or engaging in speech that school officials reasonably conclude will materially and substantially disrupt the work and discipline of the school or of an extracurricular activity; dressing, grooming, or engaging in speech that a reasonable observer would interpret as advocating illegal drug use.
 15. Willfully violating the behavioral expectations for those students riding Holdrege Public Schools buses or vehicles used for activity purposes.
 16. Failure to report for the activity at the beginning of the season. Reporting for one activity may count as reporting on time if there is a change in activity within the season approved by the coach or the supervisor.
 17. Failure to participate in regularly scheduled classes on the day of an extracurricular activity or event.
 18. Failure to attend scheduled practices and meetings. If circumstances arise to prevent the participant's attendance, the validity of the reason will be determined by the coach or sponsor. Every reasonable effort should be made to notify the coach or sponsor prior to any missed practice or meeting.
 19. All other reasonable rules or regulations adopted by the coach or sponsor of an extracurricular activity shall be followed, provided that participants shall be advised by the coach or sponsor of such rules and regulations in writing.
 20. Failure to comply with any rule established by the Nebraska School Activities Association, including, but not limited to, the rules relating to eligibility.

All terms used in the Code of Conduct have a less strict meaning than under criminal law and are subject to reasonable interpretation by school officials.

Drug and Alcohol Violations.

Meaning of Terms.

Use or consume includes any level of consumption or use. Use of a controlled substance in the manner prescribed for the student by the student's physician is not a violation.

Under the influence means any level of impairment and includes even the odor of alcohol on the breath or person of a student, or the odor of an illicit drug on the student. Also, it includes being impaired by reason of the abuse of any material used as a stimulant.

Possession includes having control of the substance and also includes being in the same area where the substance is present and no responsible adult present and responsible for the substance. Possession includes situations where, for example:

- (1) Alcohol is in a vehicle in which the student is present. The student is considered to be in possession if the student is aware that the alcohol is in the vehicle, even though the student has not touched or consumed the alcohol; and
- (2) Alcohol is present at a party attended by the student. The student is considered to be in possession if the student is aware that alcohol is at the party and fails to immediately leave the party, even though the student has not touched or consumed the alcohol.

In these situations, a violation would not exist if the alcohol is in the control of a parent or guardian or other responsible adult (age 21 or older) such that students are not allowed to access the alcohol. A violation would also not exist if the student did not know or have a reasonable basis to know that alcohol would be present, and the student leaves the location where the alcohol is present as soon the student could safely do so. (Students are expected to leave immediately, but are not to do so in a manner that would endanger them. For example, you are not to leave in a car being driven by a person who has been drinking just to get away from the alcohol party immediately when there is no other way to get home. Instead, you should call for a safe ride home and, while waiting, clearly distance yourself from the alcohol).

- (3) The student has a positive urine drug test result under the parameters of the Extracurricular Activities Participant Drug Testing Program.

Consequences.

Students may be suspended from practices or participation in interscholastic competition or participation in co-curricular activities for violations of the Code of Conduct. The period of suspension or other discipline for such offenses shall be determined by the school administration.

The disciplinary consequence will be determined based on consideration of the seriousness of the offense, any prior violations, the student's compliance with the self-reporting obligations, the student's level of cooperation and willingness to resolve the matter, and the student's demonstration of a commitment to not commit future violations.

Because of the significance of drug and alcohol violations on the student participants, other students and the school, the following consequences are established for such violations:

Drugs and Alcohol.

An activity participant who violates the drug or alcohol rules (other than steroids) shall be prohibited from participating in any extracurricular activity for the following minimum periods:

1. First Violation: The student may not attend any school activities for two weeks. The student will miss two weeks of contests, including practices/rehearsals, beginning on the day of the positive result, when the student admits to guilt, or when an investigation by the Principal, Activities Director, and/or Coach determines the student's guilt. The penalty of missing two weeks of contests, including practices/rehearsals, carries over from sport/activity to sport/activity and from year to year, for example, if a student participating in a fall sport has a positive test result/violation after the season has ended, he/she will miss the first two weeks of competition, including practices/rehearsals, in the next sport/activity they go out for, or the first two weeks of competition in the subsequent school year if they are a one-sport athlete.
2. Second Violation: The student may not attend any school sport/activity for five weeks. The student misses five weeks of contests, including practices/rehearsals, before being eligible to participate (may overlap into the next activity), for example, if a student has a positive test result/violation as a freshman and has another positive test result/violation as a senior, it will be a second offense suspension.
3. Third Violation: The student will be suspended from all school sports/activities for the remainder of their high school career. Students may regain eligibility after a minimum eight week suspension in addition to successful completion of an HPS approved substance abuse treatment program. The student will remain on the testing schedule each month for the remainder of their high school career.
4. Reduction for Self-Reporting: A student who self-reports, prior to providing a urine sample or other violation will comply with the requirements for a First Positive Result/Violation, except that there will be only one week of forfeiture of all sports/activities. The week forfeiture begins on the day of self-report. Self-reports may be used as a first offense only, subsequent positives following a self-report will continue to actions stated in Second/Third Positive Result/Violation. A student may only self-report one time as a Holdrege High School student, regardless of any lapses in enrollment.
5. Reduction for Participation in Chemical Dependency Program: If the student and parents agree to participate in a school-approved program for chemical dependency, the consequence will be reduced to only the next activity in which the student was to participate (including at least one contest) in the case of a first violation, and to a commensurate reduction (approximately 80%, as determined by the administration, for a second or subsequent violation).
The program must be administered by a certified alcohol and drug abuse counselor and be approved by the school authorities. The student will need to successfully complete the approved chemical dependency program. Proof of

successful completion of program must be submitted in writing to the Activities Director. Failure to participate and successfully complete the approved chemical dependency program may cause the participating student to be suspended from extracurricular activities for one calendar year. All costs associated with the program are to be borne by the student/parent or guardian.

6. More Serious Violations: In the event of more serious drug or alcohol violations, such as students engaging in use of especially serious drug offenses (cocaine, meth, etc.) or procuring alcohol for minors, the consequence of the violation is not limited by the foregoing, and may be established in the good discretion of the administration.

Steroid Offenses. A student who possesses, dispenses, delivers, or administers anabolic steroids shall be prohibited from participating in any extracurricular activity for the following minimum periods:

1. First Violation: 30 consecutive days.
2. Second or Any Subsequent Offense: One calendar year.

When Suspensions Begin. All suspensions begin with the next scheduled activity in which the student is a participant, after the determination by school officials of the sanction to be imposed; provided that the school officials shall have the discretion to establish a time period for the suspension that makes the suspension have a real consequence for the student. During a suspension, participants may be required or permitted to practice at the sole discretion of the coach or activity sponsor. Suspensions in the Spring will be carried over to the Fall when the suspension has not been fully served or when determined appropriate for the suspension to have a real consequence for the student.

Letters and Post-Season Honors. A student who commits a Code of Conduct violation is:

1. Eligible to letter, provided the student meets the criteria of the coach or sponsor.
2. Not eligible to receive honors during the sport or activity in which they are participating at the time of the offense and/or in sports or activities in which they have been suspended due to a code violation. The coach/sponsor, with the Athletic Director's approval, may make an exception where the student has self-reported or otherwise demonstrated excellence in character allowing for such honors.

Self-Reporting. A student who violates the Code of Conduct must self-report. The self-report must be made to: the principal, athletic director, or the head coach or sponsor of an activity in which the student participates. The student's parent or guardian may initiate the self-reporting process, but the student will be later required to give a written statement of the self-report. The self-report must be made the earlier of: (1) before the end of the next school day after the conduct occurred and (2) before participation in an extracurricular or co-curricular activity.

In making a self-report, the student must identify the events that took place, what conduct the student engaged in, and any witnesses to the student's conduct, and will be required to put this information in a written statement. In the event the student has received a criminal citation, charge, or ticket, and proclaims innocence of a violation, the student will be required to self-report such offense and provide information as to why they should be found innocent, not as it relates to the criminal offense, but as it relates to the Code of Conduct.

All students are expected to be honest and forthright with school officials. In the event the coach or activity sponsor or any school administrator asks a student participant for information pertaining to compliance (or lack of compliance) by the student or other student participants with the Code of Conduct or eligibility conditions for participation in activities, the student is expected to fully, completely, and honestly provide the information. Students may be disciplined for a failure to be honest and forthright.

Determining a Violation Has Occurred. A violation of the Code of Conduct will be determined to have occurred based on any of the following criteria:

1. When a student is cited by law enforcement and school officials have a reasonable basis for determining that grounds for the issuance of the citation exist.
2. When a student is convicted of a criminal offense. Conviction includes, without limitation, a plea of no contest and an adjudication of delinquency by the juvenile court.
3. When a student admits to violating one of the standards of the Code of Conduct.
4. When a student is accused by another person of violating one of the standards of the Code of Conduct and school officials determine that such information is reliable.
5. When school officials otherwise find sufficient evidence to support a determination that a violation has occurred.

Procedures for Extracurricular Discipline. The following procedures are established for suspensions from participation in extracurricular activities:

1. Investigation. The school official(s) considering the suspension will conduct a reasonable investigation of the facts and circumstances and determine whether the suspension will help the student or other students, further school purposes, or prevent an interference with a school purpose.
2. Meeting. Prior to commencement of the suspension, the school official considering the suspension or their designee will provide the student an opportunity to give the student's side of the story. The meeting for this purpose may be held in person or via a telephone conference.
 - a. The student will be given oral or written notice of what the student is accused of having done, an explanation of the evidence the school has, and the opportunity to explain the student's version. Detail is not required where the activity participant has made a self-report or otherwise admits the conduct. Names of informants may be kept confidential where determined to be appropriate.

- b. The suspension may be imposed prior to the meeting if the meeting can not reasonably be held before the suspension is to begin. In that case the meeting will occur as soon as reasonably practicable. The student is responsible for cooperating in the scheduling of the meeting.
- 3. Notice Letter. Within two school days (two business days if school is not in session), or such additional time as is reasonably necessary following the suspension, the Athletic Director or the Athletic Director's designee will send a written statement to the student and the student's parents or guardian. The statement will describe the student's conduct violation and the discipline imposed. The student and parents or guardian will be informed of the opportunity to request a hearing.
- 4. Informal Hearing Before Superintendent. The student or student's parent/guardian may request an informal hearing before the Superintendent. The Superintendent may designate the Athletic Director or another administrator not responsible for the suspension decision as the Superintendent's designee to conduct the hearing and make a decision.
 - a. A form to request such a hearing must be signed by the parent or guardian. A form will be provided with the notice letter or otherwise be made available by request from the Principal's office.
 - b. The request for a hearing must be received by the Superintendent's office within five days of receipt of the notice letter.
 - c. If a hearing is requested:
 - i. The hearing will be held within ten calendar days of receipt of the request; subject to extension for good cause as determined by the Superintendent or the Superintendent's designee.
 - ii. The Superintendent or the Superintendent's designee will notify the participants of the time and place of the hearing a reasonable time in advance to allow preparation for the hearing.
 - iii. Upon conclusion of the hearing, a written decision will be rendered within five school days (ten calendar days if school is not in session). The written decision will be mailed or otherwise delivered to the participant, parents or guardian.
 - iv. A record of the hearing (copies of documents provided at the hearing and a tape recording or other recordation of the informal hearing) will be kept by the school if requested sufficiently in advance of the hearing by the parent/guardian.
- 5. No Stay of Penalty. There will be no stay of the penalty imposed pending completion of the due process procedures
- 6. Opportunity for Informal Resolution. These due process procedures do not prevent the student or parent/guardian from discussing and settling the matter with the appropriate school officials at any stage.

Section 3 Attendance

Student participants are expected to meet the following attendance expectations:

1. Attend school regularly. Students who have “excessive absences” as determined under the school’s attendance policy are ineligible to participate in extracurricular activity contests or performances.
2. Be on time for all scheduled practices, contests and departure for contests. In the event a participant is unable to attend a practice or contests the participant should contact the coach or sponsor in advance.
3. On the day of a contest, performance or other activity, be in attendance for the full day. A student who is not in attendance the full day is ineligible for the contest, performance, or activity.

Exceptions may be made for extenuating circumstances, such as doctor/dentist appointments or family emergencies. The exception must be approved by the Principal or Athletic Director.

Every attempt should be made to be in attendance the day of a contest. Sleeping in to rest up for the game will not be considered an extenuating circumstance, nor will going home ill and then returning to play in the contest later that day.

Section 4 Academic Standards

Participation in extracurricular school activities is encouraged and desirable for all students. At the same time, the primary mission and responsibility for each student is to establish a firm academic foundation. A student participating in extracurricular school activities must show evidence of sincere effort towards scholastic achievement. To be eligible for participation in extracurricular activities, students must:

1. Be enrolled in at least 5 credit hours in the semester of participation.
2. Maintain passing grades in all courses. A student who is not passing one or more classes at progress reporting times will be ineligible to participate in extracurricular activity contests or performances if the grade remains below passing one week after progress reporting time. The student will remain ineligible until the student is passing all classes.
3. Maintain an overall “C” average the previous semester to participate in extracurricular activities, except school dances.
4. Academic requirements do not apply to:
 - (A) Instructional field trips which are a part of the scheduled course learning experience; or
 - (B) Activities or events which are a part of the student’s grade requirements.

Eligibility criteria for part-time students is governed by Policy 5004, NSAA bylaws, and state law.

The District's safe and drug-free schools program is established in accordance with principles of effectiveness as required by law to respond to such harmful effects.

Education and Prevention

The District promotes comprehensive, age appropriate, developmentally based drug and alcohol education and prevention programs, which will include in the curriculum the teaching of both proper and incorrect use of drugs and alcohol for all students in all grades of this School District. Further, the District will have proper in-service orientation and training for all employed staff.

Standards of Conduct; Notice to Students and Parents

Students are to be provided a copy of the standards of conduct for student behavior in the District which prohibit the unlawful possession, use, or distribution of illicit drugs and alcohol on school premises or as a part of any of the school's activities. It shall be the further policy of the District to keep a file showing receipt of standards of conduct and a statement of disciplinary sanctions that may be taken for violations of such standards of conduct. The receipt shall be signed by both student and parent or guardian and returned to the respective Principal. It shall contain in prominent letters the following language:

Notification of Rights Under FERPA

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age (“eligible students”) certain rights with respect to the student’s education records. They are:

- 1) The right to inspect and review the student’s education records within 45 days of the day the District receives a request for access.

Parents or eligible students should submit to the school principal (or appropriate school official) a written request that identifies the record(s) they wish to inspect. The principal will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

- 2) The right to request the amendment of the student’s education records that the parent or eligible student believes are inaccurate or misleading.

Parents or eligible students may ask the School District to amend a record that they believe is inaccurate or misleading. They should write the school principal, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the District decides not to amend the record as requested by the parent or eligible student, the District will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

- 3) The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.

One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the District as an administrator, supervisor, instructor or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; a person or company with whom the District has contracted to perform a special task (such as an attorney, auditor, medical consultant or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee or assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the District discloses education records without consent to officials of another School District in which a student seeks or intends to enroll.

- 4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

Kathleen Styles, Office of the Chief Privacy Officer
U.S. Department of Education

STUDENT FEES

The Board of Education of Holdrege Public Schools adopts the following student fees policy in accordance with the Public Elementary and Secondary Student Fee Authorization Act.

The District's general policy is to provide for the free instruction in school in accordance with the Nebraska Constitution. This generally means that the District's policy is to provide free instruction for courses which are required by state law or regulation and to provide the staff, facility, equipment, and materials necessary for such instruction, without charge or fee to the students.

The District does provide activities, programs, and services to children which extend beyond the minimum level of constitutionally required free instruction. Students and their parents have historically contributed to the District's efforts to provide such activities, programs, and services. The District's general policy is to continue to encourage and, to the extent permitted by law, to require such student and parent contributions to enhance the educational program provided by the District.

Under the Public Elementary and Secondary Student Fee Authorization Act, the District is required to set forth in a policy its guidelines or policies for specific categories of student fees. The District does so by setting forth the following guidelines and policies. This policy is subject to further interpretation or guidance by administrative or Board regulations which may be adopted from time to time. The Policy includes a Student Fee Schedule, which provides further specifics of student fees and materials required of students for the 2023-24 school year. Parents, guardians, and students are encouraged to contact their building administration or their teachers or activity coaches and sponsors for further specifics.

(1) Guidelines for Non-Specialized Attire Required for Specified Courses and Activities

firing of any metal or other materials, gas or electric arc welding or other forms of welding processes, repair or servicing of any vehicle, or caustic or explosive materials, or for laboratory classes involving caustic or explosive materials, hot liquids or solids, injurious radiations, or other similar hazards. B. Prohibited Harassment, Discrimination, and Retaliation of Employees, Students and Others.**1. Purpose:**

Holdrege Public Schools is committed to offering employment and educational opportunity to its employees and students in a climate free of discrimination. Accordingly, unlawful discrimination, harassment and retaliation of any kind by District employees, including, co-workers, non-employees (such as volunteers), third parties, and others is strictly prohibited and will not be tolerated.

Harassment is a form of discrimination and includes verbal, non-verbal, written, graphic, or physical conduct relating to a person's sex, disability, race race (including skin color, hair texture, and protective hairstyles), color, religion, veteran status, national or ethnic origin, age, marital status, pregnancy, childbirth or related medical condition, sexual orientation or gender identity, or other protected status, that is sufficiently serious to deny,

interfere with, or limit a person's ability to participate in or benefit from an educational or work program or activity, including, but not limited to:

- a. Conduct that is sufficiently severe or pervasive to create an intimidating, hostile, or abusive educational or work environment, or
- b. Requiring an individual to endure the offensive conduct as a condition of continued employment or educational programs or activities, including the receipt of aids, benefits, and services.

Educational programs and activities include all academic, educational, extracurricular, athletic, and other programs of the school, whether those programs take place in a school's facilities, on a school bus, at a class or training program sponsored by the school at another location, or elsewhere.

Discriminatory harassment because of a person's sex, disability, race (including skin color, hair texture, and protective hairstyles), color, religion, veteran status, national or ethnic origin, age, marital status, pregnancy, childbirth or related medical condition, sexual orientation or gender identity, or other protected status, may include, but is not limited to:

- a. Name-calling,
- b. Teasing or taunting,
- c. Insults, slurs, or derogatory names or remarks,
- d. Demeaning jokes,
- e. Inappropriate gestures,
- f. Graffiti or inappropriate written or electronic material,
- g. Visual displays, such as cartoons, posters, or electronic images,
- h. Threats or intimidating or hostile conduct,
- i. Physical acts of aggression, assault, or violence, or
- j. Criminal offenses

The following examples are additional or more specific examples of conduct that may constitute sexual harassment:

- a. Unwelcome sexual advances or propositions,
- b. Requests or pressure for sexual favors,
- c. Comments about an individual's body, sexual activity, or sexual attractiveness,
- d. Physical contact or touching of a sexual nature, including touching intimate body parts and inappropriate patting, pinching, rubbing, or brushing against another's body,
- e. Physical sexual acts of aggression, assault, or violence, including criminal offenses (such as rape, sexual assault or battery, and sexually motivated stalking), against a person's will or where a person is incapable of giving consent due to the victim's age, intellectual disability, or use of drugs or alcohol,
- f. Requiring sexual favors or contact in exchange for aids, benefits, or services, such as grades, awards, privileges, promotions, etc., or
- g. Gender-based harassment; acts of verbal, nonverbal, written, graphic, or physical conduct based on sex or sex-stereotyping, but not involving conduct of a sexual nature.

If the District knows or reasonably should know about possible harassment, including violence, the District will conduct a prompt, adequate, reliable, thorough, and impartial investigation to determine whether unlawful harassment occurred (see section entitled “Grievance Procedures,” below), and take appropriate interim measures, if necessary. If the District determines that unlawful harassment occurred, the District will take prompt and effective action to eliminate the harassment, prevent its recurrence, and remedy its effects, if appropriate. If harassment or violence that occurs off school property creates a hostile environment at school, the District will follow this policy and grievance procedure, within the scope of its authority.

All District employees are expected to take prompt and appropriate actions to report and prevent discrimination, harassment, and retaliation by others. Employees who witness or become aware of possible discrimination, including harassment and retaliation, must immediately report the conduct to his or her supervisor or the compliance coordinator designated to handle complaints of discrimination (designated compliance coordinator).

2. Anti-retaliation:

The District prohibits retaliation, intimidation, threats, coercion, or discrimination against any person for opposing discrimination, including harassment, or for participating in the District's discrimination complaint process or making a complaint, testifying, assisting, or participating in any manner, in an investigation, proceeding, or hearing. Retaliation is a form of discrimination.

The District will take immediate steps to stop retaliation and prevent its recurrence against the alleged victim and any person associated with the alleged victim. These steps will include, but are not limited to, notifying students, employees, and others, that they are protected from retaliation, ensuring that they know how to report future complaints, and initiating follow-up contact with the complainant to determine if any additional acts of discrimination, harassment, or retaliation have occurred. If retaliation occurs, the District will take prompt and strong responsive action, including possible discipline, including expulsion or termination, if applicable.

3. Grievance (or Complaint) Procedures:

Employees or students should initially report all instances of discrimination, harassment or retaliation to their immediate supervisor or teacher or to the compliance coordinator designated to handle complaints of discrimination (designated coordinator). If the employee or student is uncomfortable in presenting the problem to the supervisor or teacher, or if the supervisor or teacher is the problem, the employee or student may report the alleged discrimination, harassment or retaliation (“discrimination”) to the designated coordinator, or in the case of students, to another staff person (such as a counselor or principal).

Other individuals may report alleged discrimination to the designated coordinator. If the designated coordinator is the person alleged to have committed the discriminatory act, then the complaint should be submitted to the Superintendent for assignment. A discrimination complaint form is attached to this grievance procedure and is available in

the office of each District building, on the District's website, and from the designated coordinators.

Under no circumstances will a person filing a complaint or grievance involving discrimination be retaliated against for filing the complaint or grievance.

i. Level 1 (Investigation and Findings):

Once the District receives a grievance, complaint or report alleging discrimination, harassment, or retaliation, or becomes aware of possible discriminatory conduct, the District will conduct a prompt, adequate, reliable, thorough, and impartial investigation to determine whether unlawful harassment occurred. If necessary, the District will take immediate, interim action or measures to protect the alleged victim and prevent further potential discrimination, harassment, or retaliation during the pending investigation. The alleged victim will be notified of his or her options to avoid contact with the alleged harasser, such as changing a class or prohibiting the alleged harasser from having any contact with the alleged victim pending the result of the District's investigation. The District will minimize any burden on the alleged victim when taking interim measures to protect the alleged victim.

The District will promptly investigate all complaints of discrimination, even if an outside entity or law enforcement agency is investigating a complaint involving the same facts and allegations. The District will not wait for the conclusion or outcome of a criminal investigation or proceeding to begin an investigation required by this grievance procedure. If the allegation(s) involve possible criminal conduct, the District will notify the complainant of his or her right to file a criminal complaint, and District employees will not dissuade the complainant from filing a criminal complaint either during or after the District's investigation.

The District will aim to complete its investigation within **ten (10) working days** after receiving a complaint or report, unless extenuating circumstances exist. Extenuating circumstances may include the unavailability of witnesses due to illness or incapacitation, or additional time needed because of the complexity of the investigation, the need for outside experts to evaluate the evidence (such as forensic evidence), or multiple complainants or victims. If extenuating circumstances exist, the extended timeframe to complete the investigation will **not exceed ten (10) additional working days without the consent of the complainant, unless the alleged victim agrees to a longer timeline.** Periodic status updates will be given to the parties, when appropriate.

The District's investigation will include, but is not limited to:

- a. Providing the parties with the opportunity to present witnesses and provide evidence.
- b. An evaluation of all relevant information and documentation relating to the alleged discriminatory conduct.
- c. For allegations involving harassment, some of the factors the District will consider include: 1) the nature of the conduct and whether the conduct was unwelcome, 2) the surrounding circumstances, expectations, and relationships, 3) the degree to which the conduct affected one or more students' education, 4) the type, frequency, and duration of the conduct, 5)

the identity of and relationship between the alleged harasser and the suspect or suspects of the harassment, 6) the number of individuals involved, 7) the age (and sex, if applicable) of the alleged harasser and the alleged victim(s) of the harassment, 8) the location of the incidents and the context in which they occurred, 9) the totality of the circumstances, and 10) other relevant evidence.

- d. A review of the evidence using a “preponderance of the evidence” standard (based on the evidence, is it more likely than not that discrimination, harassment, or retaliation occurred?)

The designated compliance coordinator (or designated investigator) will complete an investigative report, which will include:

- a. A summary of the facts,
- b. Findings regarding whether discrimination, harassment or other inappropriate conduct occurred, and
- c. If a finding is made that discrimination, harassment or other inappropriate conduct occurred, the recommended remedy or remedies necessary to eliminate discrimination, harassment or other inappropriate conduct.

If someone other than the designated compliance coordinator conducted the investigation, the compliance coordinator will review, approve, and sign the investigative report. The District will ensure that prompt, appropriate, and effective remedies are provided if a finding of discrimination, harassment, or retaliation is made. The District will maintain relevant documentation obtained during the investigation and documentation supportive of the findings and any subsequent determinations, including the investigative report, witness statements, interview summaries, and any transcripts or audio recordings, pertaining to the investigative and appeal proceedings.

The District will send concurrently to the parties written notification of the decision (findings and any remedy) regarding the complaint within **one (1) working day** after the investigation is completed. The Family Educational Rights and Privacy Act (FERPA), 20 U.S.C. § 11232g; 34 C.F.R. Part 99, permits the District to disclose relevant information to a student who was discriminated against or harassed.

ii. Level 2 (Appeal to the Superintendent):

If a party is not satisfied with the findings or remedies (or both) set forth in the decision, he or she may file an appeal in writing with the Superintendent within **five (5) working days** after receiving the decision. The Superintendent will review the appeal and the investigative documentation and decision, conduct additional investigation, if necessary, and issue a written determination about the appeal **within ten (10) working days** after receiving the appeal. The party who filed the appeal will be sent the Superintendent’s determination at the time it is issued, and a copy will be sent to the designated compliance coordinator. [If the Superintendent is the subject of the complaint, the party will file the appeal directly with the Board.]

iii. Level 3 (Appeal to the Board):

If the party is not satisfied with the Superintendent’s determination, he or she may file an appeal in writing with the Board of Education **within five (5) working days** after

receiving the Superintendent's determination. The Board of Education will review the appeal, the Superintendent's determination, the investigative documentation and decision, and allow the party to address the Board at a Board meeting to present his or her appeal. The party will be allowed to address the Board at the Board's next regularly scheduled Board meeting (unless the Board receives the appeal within one week of the next regularly scheduled Board meeting) or at a time and date agreed to by the Board, designated compliance officer and the party. The Board will issue a written determination about the appeal **within thirty (30) days** after the party addresses the Board. The party who filed the appeal will be sent the Board's determination at the time it is issued, and a copy will be sent to the designated compliance coordinator. The Board's determination, and any actions taken, will be final on behalf of the District.

4. Confidentiality:

The identity of the complainant will be kept confidential to the extent permitted by state and federal law. The District will notify the complainant of the anti-retaliation provisions of applicable laws and that the District will take steps to prevent retaliation and will take prompt and strong responsive actions if retaliation occurs.

If a complainant requests confidentiality or asks that the complaint not be pursued, the District will take all reasonable steps to investigate and respond to the complaint consistent with the request for confidentiality or the request not to pursue an investigation, as long as doing so does not prevent the District from responding effectively to the harassment and preventing harassment of other students. If a complainant insists that his or her name or other identifiable information not be disclosed to the alleged perpetrator, the District will inform the complainant that its ability to respond may be limited. Even if the District cannot take disciplinary action against the alleged harasser, the District will pursue other steps to limit the effects of the alleged harassment and prevent its recurrence, if warranted,

5. Training:

The District will ensure that relevant District employees, including but not limited to officials, administrators, teachers, substitute teachers, counselors, nurses and other health personnel, coaches, assistant coaches, paraprofessionals, aides, bus drivers, and school law enforcement officers, are adequately trained so they understand and know how to identify acts of discrimination, harassment, and retaliation, and how to report it to appropriate District officials or employees.

6. Designated Compliance Coordinators:

Designated compliance coordinators will be responsible for:

- a. Coordinating efforts to comply with anti-discrimination, anti-harassment, and anti-retaliation laws and regulations.
- b. Coordinating and implementing training for students and employees pertaining to anti-discrimination, anti-harassment and anti-retaliation laws and regulations, including the training areas listed above.
- c. Investigating complaints of discrimination (unless the coordinator designates other trained individuals to investigate).
- d. Monitoring substantiated complaints or reports of discrimination, as needed (and with the assistance of other District employees, if necessary),

- to ensure discrimination or harassment does not recur, and that retaliation conduct does not occur or recur.
- e. Overseeing discrimination complaints, including identifying and addressing any patterns or systemic problems, and reporting such patterns or systemic problems to the Superintendent and the Board of Education.
 - f. Communicating regularly with the District's law enforcement unit investigating cases and providing current information to them pertaining to anti-discrimination, anti-harassment, and anti-retaliation standards and compliance requirements.
 - g. Reviewing all evidence in harassment or violence cases brought before the District's disciplinary committee or administrator to determine whether the complainants are entitled to a remedy under anti-discrimination laws and regulations that was not available in the disciplinary process.
 - h. Ensuring that investigations address whether other students or employees may have been subjected to discrimination, including harassment and retaliation.
 - i. Determining whether District employees with knowledge of allegations of discrimination, including harassment and retaliation, failed to carry out their duties in reporting the allegations to the designated compliance coordinator and responding to the allegations.
 - j. Recommending changes to this policy and grievance procedure.
 - k. Performing other duties as assigned.

The designated compliance coordinators will not have other job responsibilities that may create a conflict of interest with their coordinator responsibilities.

7. Preventive Measures:

The District will publish and widely distribute on an ongoing basis a notice of nondiscrimination (notice) in electronic and printed formats, including prominently displaying the notice on the District's website and posting the notice at each building in the District. The District also will designate an employee to coordinate compliance with anti-discrimination laws (see Designated Compliance Coordinator section, above, for further information on compliance coordinator), and widely publish and disseminate this grievance procedure, including prominently posting it on the District's website, at each building in the District, reprinting it in District publications, such as handbooks, and sending it electronically to members of the school community. The District will provide training to employees and students at the beginning of each academic year in the areas (B.6.a-g) identified in the Training section, above.

The District also may distribute specific harassment and violence materials (such as sexual violence), including a summary of the District's anti-discrimination, anti-harassment, and anti-retaliation policy and grievance procedure, and a list of victim resources, during events such as school assemblies and back to school nights, if recent incidents or allegations warrant additional education to the school community.

StudentsSearch and Seizure

When it is determined based on searches that a person has violated a Board policy, administrative regulation, building rule, student conduct rule or personnel expectation, or the law, the person shall be subject to appropriate disciplinary action and a report to law enforcement may be made.

Student lockers, desks and other such property are owned by the school. The school exercises exclusive control over school property. Students should not expect privacy regarding items placed in or on school property because school property is subject to search at any time by school officials. Periodic, random searches of student lockers may be conducted in the discretion of the administration.

The following procedures will be used for conducting searches:

1. School officials may conduct a search if there is a reasonable basis to believe that the search will uncover evidence of a crime or rule violation. The search must be conducted in a reasonable manner under the circumstances.
2. Random searches of student lockers, desks, and other similar school property provided for use by students may be conducted in the discretion of the administration.
3. Drug or alcohol tests may be conducted on students based on reasonable suspicion.
4. Drug or alcohol tests may be conducted on a random basis for students participating in extracurricular activities, provided that: a) the student gave consent for testing in advance (attendance at or participation in the extracurricular activity may be withheld in the absence of consent), b) the testing actually be random, c) that the testing procedures limit any intrusion on student privacy, and provide for an appropriate level of confidentiality and accuracy, and d) that the response to positive tests take into consideration student safety and compliance with laws related to reporting and releasing students to law enforcement.
5. School officials may search offices and storage devices provided to or used by employees where permitted by law, such as where reasonable grounds exist for suspecting that a search will turn up evidence that the employee has committed work-related misconduct, or that a search is necessary for a non-investigatory work-related purpose, such as to retrieve a file.
6. Searches of the District's computer system may be conducted in the discretion of the administration at any time.

The following procedures will be used for the removal of personal property:

1. Illegal items or other items reasonably determined to be a threat to the safety of others or a threat to educational purposes may be seized by school officials. Any illegal drugs, firearm or dangerous weapon shall be confiscated and delivered to law enforcement as soon as practicable. A personal safety or security device (such as a taser, mace, or pepper spray) not previously approved by the administration constitutes a “dangerous weapon.”
2. Items which have been or are reasonably expected to be used to disrupt or interfere with the educational process may be removed from student possession.

The District is not responsible for the security or safety of personal property which employees, students, or other building users may bring to school.

StudentsRequests to Contact Students and Student Interviews by Non-School PersonnelA. Removals of Students and Interviews of Students

In dealing with law enforcement officials, Holdrege Public Schools' employees are not to obstruct government operations or unreasonably refuse or fail to aid a peace officer, but are also to attempt to prevent undue interference with District operations or educational programming.

1. Removals of Students by Law Enforcement Officials

Law enforcement officers should not be permitted to remove a child from school while the child is properly in attendance, without permission of the child's parent or guardian, except when legally authorized to do so. For purposes of this policy, a law enforcement officer is defined as: sheriffs, coroners, jailers, marshals, police officers, state highway patrol officers, members of the National Guard on active service by direction of the Governor during periods of emergency, and all other persons with similar authority to make arrests. (Neb. Rev. Stat. §49-801).

Law enforcement officers may in the line of duty require a student to accompany him or her for questioning or detention either with or without an arrest warrant. A peace officer has the lawful authority to take immediate temporary custody of children under the age of 18 with an arrest warrant, or without a warrant or order of the court when:

- (a) the child has violated a state law or municipal ordinance and such child was eleven years of age or older at the time of the violation, and the officer has reasonable grounds to believe such child committed such violation and was eleven years of age or older at the time of the violation;
- (b) the child is seriously endangered in his or her surroundings and immediate removal appears to be necessary for the child's protection;
- (c) the officer believes the child to be mentally ill and dangerous as defined in Neb. Rev. Stat. §71-908 and that the harm described in that section is likely to occur before proceedings may be instituted before the juvenile court;
- (d) the officer has reasonable grounds to believe that the juvenile has run away from his or her parent, guardian, or custodian;
- (e) a probation officer has reasonable cause to believe that a juvenile is in violation of probation and that the juvenile will attempt to leave the jurisdiction or place lives or property in danger;
- (f) the officer has reasonable grounds to believe the juvenile is truant from school. (Neb. Rev. Stat. §§43-418 and 43-248).

- (g) the officer has reasonable grounds to believe the child is immune from prosecution for prostitution under subsection (5) of section 28-801; or
- (h) the child has committed an act or engaged in behavior described in subdivision (1), (2), (3)(b), or (4) of section 43-247 and such child was under eleven years of age at the time of such act or behavior, and the officer has reasonable cause to believe such child committed such act or engaged in such behavior and was under eleven years of age at such time.

If a peace officer or probation officer requests to take custody of a student who is at that time under the control and jurisdiction of Holdrege Public Schools, the following action is to be taken:

- (a) Establish Authority to Remove. The student should be released after appropriate measures are taken and documented to ensure that the officer has the authority to take the student. The form attached as Exhibit “A” to this Policy may be used for this purpose.
- (b) Notify Local Law Enforcement. In some instances there may be orders for custody of a student served by the officers with authority to arrest from outside the jurisdiction of Holdrege Public Schools. Local law enforcement should be contacted and requested to participate in or monitor the removal.
- (c) Notify Parent of Removal. When a principal or other school official releases a minor student to a peace officer for the purpose of removing the minor from the school premises, the principal or other school official shall take immediate steps to notify the parent, guardian, or responsible relative of the minor regarding the release of the minor student to the officer and the place to which the student is reportedly being taken. Provided, however, when a minor student has been taken into custody as a victim of suspected child abuse, the principal or other school official is not required to notify the parent or guardian, but shall provide the peace officer with the address and telephone number of the minor student’s parents or guardian.

A student should not be released to a private detective or “special police officer” who is not an officer of a Nebraska political subdivision or an officer of an agency of the federal government without consent of the student’s parent, guardian or custodian.

2. Interviews of Students by Law Enforcement Officials

Law enforcement officers and other law authorities should be urged to contact students for questioning outside the instructional day and off school premises whenever possible. When it is appropriate that such questioning occur, the following guidelines are to be followed:

- (a) Interviews not related to District Events. If an interview of a student is requested during school hours concerning an ongoing investigation of a crime not related to Holdrege Public Schools, questioning should not take place until the student's parent, guardian or custodian has been contacted and permission is given for such interview. The consent should be documented. The presence of a school employee during the interview is not necessary.
- (b) Interviews Related to District Events. If the investigation relates to an incident which took place on school premises or during instructional time, it is not necessary to obtain consent of the student's parent, guardian or custodian. In these situations, an employee of the District should be present during the interview to ensure that the interview relates only to the incident which took place on school premises or during instructional time or something which is directly related thereto.
- (c) Child Abuse or Neglect. If an investigator represents that an interview is necessary to collect information concerning an allegation of child abuse or neglect or an offense involving a family relation and it is clear that obtaining parental consent for the interview would be impossible or counter-productive, the interview may be conducted without consent of the student's parent, guardian or custodian. In these situations, an employee of Holdrege Public Schools should be present during the interview to ensure that the interview relates only to those matters.
- (d) Probation Officer Interview. A probation officer assigned to a student by a court may be allowed the opportunity, on request, to interview a student on school premises. In such situations, it is neither necessary nor desirable that a District employee be present during the interview. It also is not necessary to obtain the consent of the parent, guardian, or custodian.

3. Disclosure of Student Records

School employees shall not, in the course of dealing with a peace officer or probation officer, disclose any confidential student records or information from such student records other than in response to a court order or subpoena or as otherwise authorized by state law and the Family Educational Rights and Privacy Act (FERPA).

4. Removals and Interviews by Persons other than Law Enforcement Officials

A person who comes to school premises to interview a student or remove a student prior to the end of the student's instructional day must obtain permission of an administrator or designee.

Permission to remove is not to be granted without consent of the student's parent, guardian or custodian, or a person authorized by the student's parent, guardian or custodian to give such permission.

Permission to interview on subjects not related to school matters is not to be granted unless there is a clearly valid and proper reason for the interview and such is not disruptive to school operations or the student's educational program. Ordinarily such contacts shall be restricted to the student's parent, guardian or custodian or a friend of the family when an emergency or other similar circumstance exists.

StudentsHomeless StudentsA. General Policy Statement

The District shall ensure that homeless children and youths shall have equal access to the same free, appropriate public education, including public preschool education, as provided to other children and youths.

B. Definitions

“School of Origin” shall mean the school that a child or youth attended when permanently housed or the school in which the child or youth was last enrolled, including preschool. School of origin shall also include any designated receiving school for the next grade level for all feeder schools when a student completes the final grade level served by the school of origin.

“Homeless children and youths” shall mean any individuals who lack a fixed, regular, and adequate nighttime residence; and includes:

1. Children and youths who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; or are abandoned in hospitals;
2. Children and youths who have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings;
3. Children and youths who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and
4. Migratory children who qualify as homeless because they are living in circumstances described in (1-3).

“Unaccompanied youth” shall mean a homeless child or youth not in the physical custody of a parent or guardian.

C. School Stability

1. School Selection: Each school shall presume that keeping a homeless child or youth enrolled in the child’s or youth’s school of origin is in the child’s or youth’s best interest, except when doing so is contrary to the request of the child’s or youth’s parent or guardian or, in the case of an unaccompanied youth, the youth.

To overcome the presumption that a child or youth should remain in his/her school of origin, the school shall consider student-centered factors including: the impact of mobility on achievement, education, health, and safety of homeless children and youth, giving priority to the request of the child's or youth's parent or guardian or, in the case of an unaccompanied youth, the youth.

2. Enrollment: Once the school is selected in accordance with the child's or youth's best interest, that child or youth shall be immediately enrolled even if the child or youth is unable to produce records normally required for enrollment including, but not limited to, previous academic records, immunization or other health records, proof of residency or has missed any application or enrollment deadlines during any period of homelessness.
3. Transportation: If the child or youth continues to attend his or her school of origin, transportation shall be provided promptly even if there is a dispute pending regarding which school is in the child's or youth's best interest to attend. Transportation will continue to be provided to and from the school of origin for the remainder of any academic year during which the child or youth becomes permanently housed.

D. Records

Any record ordinarily kept by the school, including immunization or medical records, academic records, birth certificates, guardianship records, and evaluations for special services or programs, regarding each homeless child or youth shall be maintained:

1. Such that all records are available, in a timely fashion, when a child or youth enrolls in a new school or school district;
2. Any information about a homeless child's or youth's living situation shall be treated as a confidential student education record, and shall not be deemed to be directory information; and
3. In a manner consistent with the Federal Education Rights and Privacy Act.

E. Services

The Local Education Agency Liaison shall identify an appropriate staff person to be the Local Educational Liaison (LEL) for all homeless children and youth attending school in the District. The LEL responsibilities shall include, but are not limited to:

Ensure homeless children and youth are identified through outreach and coordination activities including coordination with the Nebraska Department of Education Homeless Education Liaison, community, and school personnel responsible for education and related services to homeless children and youths;

2. Receive appropriate time and training in order to carry out the duties required by law and this policy;
3. Ensure homeless families and homeless children and youths are referred to health care, dental, mental health, substance abuse, housing and any other appropriate services;
4. Ensure that homeless children and youths:
 - a. Are enrolled in school which includes attending classes and participating fully in school activities;
 - b. Have a full and equal opportunity to meet the same challenging State academic standards as other children and youths;
 - c. Receive individualized counseling from counselors to prepare and improve their readiness for college, including college selection, application, financial aid, and on-campus supports.
 - d. Unaccompanied youths are informed of their status as independent students under the Higher Education Act of 1965 and may obtain assistance from the LEL to receive verification of such status for purposes of the Free Application for Federal Student Aid.
5. Ensure that public notice of the educational rights and available transportation services of the homeless children and youths is disseminated in locations frequented by parents or guardians of such youths and unaccompanied homeless youths, including schools, shelters, public libraries, and soup kitchens, in a manner and form that is easily understandable.
6. Ensure the dispute resolution process identified below is carried out in accordance with the law and district policy.

F. Dispute Resolution

1. The dispute procedure must be available for disputes over eligibility, as well as school selection or enrollment.
2. In the event of a dispute regarding where a child or youth should enroll, the child or youth shall be immediately enrolled in the school in which enrollment is sought pending final resolution of the dispute, including all available appeals. The district shall immediately provide the child's parent or guardian or, in the case of an unaccompanied youth, the youth a written explanation of the decision made regarding the school selection including the right to appeal such decision. Said writing shall be provided in a manner and form understandable to such parent, guardian, or unaccompanied youth and also include the LEL contact information.

The LEL shall carry out the dispute resolution process within 30 calendar days from the date of said writing pursuant to 92 Nebraska Administrative Code 19-005.02.

3. Appeals: Any parent, guardian or other person having legal or actual charge of a homeless child or youth that is dissatisfied with the decision of a school district after the dispute resolution process may file an appeal with the Commissioner within thirty calendar days of receipt of the decision by following the process in 92 Nebraska Administrative Code 19-005.03 and 19-005.03C.

StudentsStudent Privacy Protection Policy

It is the policy of Holdrege Public Schools to develop and implement policies which protect the privacy of students in accordance with applicable laws. The District's policies in this regard include the following:

- A. Right of Parents to Inspect Surveys Funded or Administered by the United States Department of Education or Third Parties
Parents shall have the right to inspect, upon the parent's request, a survey created by and administered by either the United States Department of Education or a third party (a group or person other than the District) before the survey is administered or distributed by the school to the parent's child.
- B. Protection of Student Privacy in Regard to Surveys of Matters Deemed to be Sensitive
The District will require, for any survey of students which contain one or more matters deemed to be sensitive (see section headed Definition of Surveys of Matters Deemed to be Sensitive), that suitable arrangements be made to protect student privacy (that is, the name or other identifying information about a particular student). For such surveys, the District will also follow the procedures set forth in the section entitled: Notification of and Right to Opt-Out of Specific Events.
- C. Right of Parents to Inspect Instructional Materials
Parents shall have the right to inspect, upon reasonable request, any instructional material used as part of the educational curriculum for their child. Reasonable requests for inspection of instructional materials shall be granted within a reasonable period of time after the request is received. Parents shall not have the right to access academic tests or academic assessments, as such are not within the meaning of the term instructional materials for purposes of this policy.

The procedures for making and granting a request to inspect instructional materials are as follows: the parent shall make the request, with reasonable specificity, directly to the building principal. The building principal, within five school days, shall consult with the teacher or other educator responsible for the curriculum materials. In the event the request can be accommodated, the building principal shall make the materials available for inspection or review by the parent, at such reasonable times and place as will not interfere with the educator's intended use of the materials. In the event there is a question as to the nature of the curriculum materials requested or as to whether the materials are required to be provided, the building principal shall notify the parent of such concern, and assist the parent with forming a request which can reasonably be accommodated. If the parent does not formulate such a request, and continues to desire certain curriculum materials, the parent shall be asked to make their request to the Superintendent.
- D. Rights of Parents to be Notified of and to Opt-Out of Certain Physical Examinations

or Screenings

The general policy and practice of the District is to not administer physical examinations or screenings of students which require advance notice or parent opt-out rights under the applicable federal laws, for the reason that the physical examinations or screenings to be conducted by the District will usually fit into one of the following exceptions: (1) hearing, vision, or scoliosis screenings; (2) physical examinations or screenings that are permitted or required by an applicable State law; and (3) surveys administered to students in accordance with the Individuals with Disabilities Education Act. For physical examinations or screenings which do not fit into the applicable exceptions, the District will follow the procedures set forth in the section entitled: Notification of and Right to Opt-Out of Specific Events.

E. Protection of Student Privacy in Regard to Personal Information Collected from Students

The general policy and practice of the District is to not engage in the collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information. The District will make reasonable arrangements to protect student privacy to the extent possible in the event of any such collection, disclosure, or use of personal information.

Personal information for purposes of this policy means individually identifiable information about a student including: (1) a student or parent=s first and last name, (2) home address, (3) telephone number, and (4) social security number. The term personal information, for purposes of this policy, does not include information collected from students for the exclusive purpose of developing, evaluating, or providing educational products or services for, or to, students or educational institutions. This exception includes the following examples: (i) college or postsecondary education recruitment, or military recruitment; (ii) book clubs, magazines, and programs providing access to low-cost literary products; (iii) curriculum and instructional materials used by elementary schools and secondary schools; (iv) tests and assessments used by elementary schools and secondary schools to provide cognitive, evaluative, diagnostic, clinical, aptitude, or achievement information about student, or to generate other statistically useful data for the purpose of securing such tests and assessments, and the subsequent analysis and public release of the aggregate data from such tests and assessments; (v) the sale by student of products or services to raise funds for school-related or education-related activities; (vi) student recognition programs.

F. Parent Access to Instruments used in the Collection of Personal Information

While the general practice of the District is to not engage in the collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information, parents shall have the right to inspect, upon reasonable request, any instrument which may be administered or distributed to a student for such purposes. Reasonable requests for inspection shall be granted within a reasonable period of time after the request is received.

The procedures for making and granting such a request are as follows: the parent shall make the request, with reasonable specificity, directly to the building principal and shall identify the specific act and the school staff member or program responsible for the collection, disclosure, or use of personal information from students for the purpose of marketing that information. The building principal, within five school days, shall consult with the school staff member or person responsible for the program which has been reported by the parent to be responsible for the collection, disclosure, or use of personal information from students. In the event such collection, disclosure, or use of personal information is occurring or there is a plan for such to occur, the building principal shall consult with the Superintendent for determination of whether the action shall be allowed to continue. If not, the instrument for the collection of personal information shall not be given to any students. If it is to be allowed, such instrument shall be provided to the requesting parent as soon as such instrument can be reasonably obtained.

Annual Parental Notification of Student Privacy Protection Policy

The District shall provide parents with reasonable notice of the adoption or continued use of this policy and other policies related to the student privacy. Such notice shall be given to parents of students enrolled in the District at least annually, at the beginning of the school year, and within a reasonable period of time after any substantive change in such policies.

Notification to Parents of Dates of and Right to Opt-Out of Specific Events

The District shall directly notify the parents of the affected children, at least annually at the beginning of the school year, of the specific or approximate dates during the school year when any of the following activities are scheduled, or are expected to be scheduled:

1. The collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information. (Note: the general practice of the District is to not engage in the collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information);
2. Surveys of students involving one or more matters deemed to be sensitive in accordance with the law and this policy; and
3. Any nonemergency, invasive physical examination or screening that is required as a condition of attendance; administered by the school and scheduled by the school in advance; and not necessary to protect the immediate health and safety of the student or of other students. (Note: the general practice of the District is to not engage in physical examinations or screenings which require advance notice, for the reason that the physical examinations or screenings to be conducted by the District will usually fit into one of the following exceptions to the advance notice requirement and parent opt-out right: (1) hearing, vision, or scoliosis screenings; (2) physical examinations or screenings that are permitted or required by an applicable State law, and (3) surveys administered to students in accordance with the Individuals with Disabilities

Education Act).

Parents shall be offered an opportunity in advance to opt their child out of participation in any of the above listed activities. In the case of a student of an appropriate age (that is, a student who has reached the age of 18, or a legally emancipated student), the notice and opt-out right shall belong to the student.

Definition of Surveys of Matters Deemed to be Sensitive

Any survey containing one or more of the following matters shall be deemed to be Asensitive@ for purposes of this policy:

1. political affiliations or beliefs of the student or the student's parent;
2. mental or psychological problems of the student or the student's parent;
3. sex behavior or attitudes;
4. illegal, anti-social, self-incriminating or demeaning behavior;
5. critical appraisals of other individuals with whom the student has close family relationships;
6. legally recognized privileged or analogous relationships, such as those of lawyers, physicians, and ministers; or
7. Religious practices, affiliations, or beliefs of the students or the student's parent;
8. income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).

Mental Health Assessment or Service

The District shall obtain informed consent from the parent of each child who is under 18 years of age to participate in any mental-health assessment or service that is funded under the Every Student Succeeds Act ("ESSA"). Before obtaining the consent, the District shall provide the parent written notice describing in detail such mental health assessment or service, including the purpose for such assessment or service, the provider of such assessment or service, when such assessment or service will begin, and how long such assessment or service may last.

InstructionCombined District and School Title I Parent and Family Engagement Policy

The District intends to follow the Title I Parent and Family Engagement Policy guidelines in accordance with federal law, *Section 1116(a -f) ESSA, (Every Student Succeeds Act) of 2015*.

In General

The written District parent and family engagement policy has been developed jointly with, updated periodically and distributed to parents and family members of participating children and the local community in an understandable and uniform format. This policy agreed on by such parents describes the means for carrying out the requirements as listed below.

- Parents and family members of all students are welcomed and encouraged to become involved with their child's school and education; this includes parents and family members that have limited English proficiency, limited literacy, are economically disadvantaged, have disabilities, racial or ethnic minority background or are migratory children. Information related to school and parent programs, meetings, school reports and other activities are sent to the parents of participating children in a format, and to the extent practicable, in a language the parents can understand.
- Parents are involved in the planning, review, evaluation and improvement of the Title I program, Parent and Family Engagement Policy and the School-Parent Compact at an annual parent meeting scheduled at a convenient time. This would include the planning and implementation of effective parent and family involvement activities.
- Conduct, with meaningful parent and family involvement, an annual evaluation of the content and effectiveness of the Parent and Family Engagement Policy. Use the evaluation findings to design evidence-based strategies for more effective parental involvement, and to revise the Parent and Family Engagement Policy.
- Opportunities are provided for parents and family members to participate in decisions related to the education of their child/children. The school and local educational agency shall provide other reasonable support for parental involvement activities.
- Parents of participating children will be provided timely information about programs under this part, a description and explanation of the curriculum in use, the forms of academic assessment used to measure student progress and the achievement levels of the challenging State academic standards. The school will provide assistance, opportunities, and/or materials and training to help parents work with their children to improve their children's academic achievement in a format, and when feasible, in a language the parents and family members can understand.
- Educate teachers, specialized instructional support personnel, principals, and other school leaders, with the assistance of parents in the value and utility of contributions of parents, how to reach out to, communicate with and work with parents as equal partners.
- Coordinate and integrate parental involvement programs and activities with other Federal, State and local programs, including preschool programs that encourage and support parents in more fully participating in the education of their children.

InstructionComputerInternet Safety and Acceptable Use PolicyA. Internet Safety Policy

It is the policy of Holdrege Public Schools to comply with the Children's Internet Protection Act (CIPA) and Children's Online Privacy Protection Act (COPPA). With respect to the District's computer network, the District shall: (a) prevent user access to, or transmission of, inappropriate material via Internet, electronic mail, or other forms of direct electronic communications; (b) provide for the safety and security of minors when using electronic mail, chat rooms, and other forms of direct electronic communications; (c) prevent unauthorized access, including so-called "hacking," and other unlawful activities online; (d) prevent unauthorized online disclosure, use, or dissemination of personal identification information of minors; (e) obtain verifiable parental consent before allowing third parties to collect personal information online from students; and (f) implement measures designed to restrict minors' access to materials (visual or non-visual) that are harmful to minors.

1. Definitions. Key terms are as defined in CIPA. "Inappropriate material" for purposes of this policy includes material that is obscene, child pornography, or harmful to minors. The term "harmful to minors" means any picture, image, graphic image file, or other visual depiction that: (1) taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion; (2) depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals; and (3) taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.
2. Access to Inappropriate Material. To the extent practical, technology protection measures (or "Internet filters") shall be used to block or filter Internet, or other forms of electronic communications, access to inappropriate information. Specifically, as required by the CIPA, blocking shall be applied to visual depictions of material deemed obscene or child pornography, or to any material deemed harmful to minors. Subject to staff supervision, technology protection measures may be disabled or, in the case of minors, minimized only for bona fide research or other lawful purposes.
3. Inappropriate Network Usage. To the extent practical, steps shall be taken to promote the safety and security of users of the District's online computer network when using electronic mail, chat rooms, instant messaging, and other forms of direct electronic communications. Specifically, as required by CIPA, prevention of inappropriate network usage includes: (a) unauthorized access, including so-called 'hacking,' and other unlawful activities; and (b) unauthorized disclosure, use, and dissemination of personal identification information regarding minors.

4. Supervision and Monitoring. It shall be the responsibility of all members of the District staff to supervise and monitor usage of the online computer network and access to the Internet in accordance with this policy and CIPA. Procedures for the disabling or otherwise modifying any technology protection measures shall be the responsibility of the Superintendent and the Superintendent's designees.
5. Social Networking. Students shall be educated about appropriate online behavior, including interacting with others on social networking websites and in chat rooms, and cyberbullying awareness and response. The plan shall be for all students to be provided education on these subjects. The Superintendent or the Superintendent's designee shall be responsible for identifying educational materials, lessons, and/or programs suitable for the age and maturity level of the students and for ensuring the delivery of such materials, lessons, and/or programs to students.
6. Parental Consent. The District shall obtain verifiable parental consent prior to students providing or otherwise disclosing personal information online.
7. Adoption. This Internet Safety Policy was adopted by the Board at a public meeting, following normal public notice.
8. The District shall comply with the Nebraska Student Online Personal Protection Act and will endeavor to take all reasonable and necessary steps to protect the online privacy of all students.

B. Computer Acceptable Use Policy

This computer acceptable use policy is supplemental to the District's Internet Safety Policy.

1. Technology Subject to this Policy. This Computer Acceptable Use Policy applies to all technology resources of the District or made available by the District. Technology resources include, without limitation, computers and related technology equipment, all forms of e-mail and electronic communications, and the internet.
2. Access and User Agreements. Use of the District technology resources is a privilege and not a right. The Superintendent or designee shall develop appropriate user agreements and shall require that employees, students (and their parents or guardians), and others to sign such user agreements as a condition of access to the technology resources, as the Superintendent determines appropriate. Parents and guardians of students in programs operated by the District shall inform the Superintendent or designee in writing if they do not want their child to have access.

The Superintendent and designees are authorized and directed to establish and implement such other regulations, forms, procedures, guidelines, and standards to implement this Policy.

The technology resources are not a public forum. The District reserves the right to restrict any communications and to remove communications that have been posted.

3. Acceptable Uses. The technology resources are to be used for the limited purpose of advancing the District's mission. The technology resources are to be used, in general, for educational purposes, meaning activities that are integral, immediate, and proximate to the education of students as defined in the E-rate program regulations.
4. Unacceptable Uses.

The following are unacceptable uses of the technology resources:

- a. **Personal Gain:** Technology resources shall not be used, and no person shall authorize its use, for personal financial gain other than in accordance with prescribed constitutional, statutory, and regulatory procedures, other than compensation provided by law.
- b. **Personal Matters:** Technology resources shall not be used, and no person shall authorize its use, for personal matters unless the User has entered into a lease agreement or other similar agreement with the School District that makes such use permissible under law.

Occasional use that the Superintendent or designee determines to ultimately facilitate the mission of the District is not prohibited by this provision. Examples of occasional use that may be determined to ultimately facilitate the mission of the District: sending an e-mail to a minor child or spouse; sending an e-mail related to a community group in which an employee is a member where the membership in the community group facilitates the District's mission.

This occasional use exception does not permit use by employees contrary to the expectations of their position. For example, employees may not play games or surf the net for purposes not directly related to their job during duty time; nor may students do so during instructional time.

The occasional use exception also does not permit use of the technology resources for private business, such as searching for or ordering items on the internet for non-school use; or sending an e-mail related to one's own private consulting business.

- c. **Campaigning:** Technology resources shall not be used, and no person shall authorize its use, for the purpose of campaigning for or against the nomination or election of a candidate or the qualification, passage, or defeat of a ballot question.

- d. Technology-Related Limitations: Technology resources shall not be used in any manner which impairs its effective operations or the rights of other technology users. Without limitation:
1. Users shall not use another person's name, log-on, password, or files for any reason, or allow another to use their password (except for authorized staff members).
 2. Users shall not erase, remake, or make unusable another person's computer, information, files, programs or disks.
 3. Users shall not access resources not specifically granted to the user or engage in electronic trespassing.
 4. Users shall not engage in "hacking" to gain unauthorized access to the operating system software or unauthorized access to the system of other users.
 5. Users shall not copy, change, or transfer any software without permission from the network administrators.
 6. Users shall not write, produce, generate, copy, propagate, or attempt to introduce any computer code designed to self-replicate, damage, or otherwise hinder the performance of any computer's memory, file system, or software. Such software is often called a bug, virus, worm, Trojan horse, or similar name.
 7. Users shall not engage in any form of vandalism of the technology resources.
 8. Users shall follow the generally accepted rules of network etiquette. The Superintendent or designees may further define such rules.
- e. Other Policies and Laws: Technology resources shall not be used for any purpose contrary to any District policy, any school rules to which a student user is subject, or any applicable law. Without limitation, this means that technology resources may not be used:
1. to access any material contrary to the Internet Safety Policy; or to create or generate any such material.
 2. to engage in unlawful harassment or discrimination, such as sending e-mails that contain sexual jokes or images.
 3. to engage in violations of employee ethical standards and employee standards of performance, such as sending e-mails that are threatening or offensive or which contain abusive language; use of end messages on e-mails that may imply that the District is supportive of a particular religion or religious belief system, a political candidate or issue, or a controversial issue; or sending e-mails that divulge protected confidential student information to unauthorized persons.
 4. to engage in or promote violations of student conduct rules.
 5. to engage in illegal activity, such as gambling.
 6. in a manner contrary to copyright laws.
 7. in a manner contrary to software licenses.

5. Disclaimer. The technology resources are supplied on an “as is, as available” basis. The District does not imply or expressly warrant that any information accessed will be valuable or fit for a particular purpose or that the system will operate error free. The District is not responsible for the integrity of information accessed, or software downloaded from the Internet.
6. Filter. A technology protection measure is in place that blocks and/or filters access to prevent access to Internet sites that are not in accordance with policies and regulations. In addition to blocks and/or filters, the District may also use other technology protection measures or procedures as deemed appropriate.

Notwithstanding technology protection measures, some inappropriate material may be accessible by the Internet, including material that is illegal, defamatory, inaccurate, or potentially offensive to some people. Users accept the risk of access to such material and responsibility for promptly exiting any such material.

The technology protection measure that blocks and/or filters Internet access may be disabled only by an authorized staff member for bona fide research or educational purposes: (a) who has successfully completed District training on proper disabling circumstances and procedures, (b) with permission of the immediate supervisor of the staff member requesting said disabling, or (c) with the permission of the Superintendent. An authorized staff member may override the technology protection measure that blocks and/or filters Internet access for a minor to access a site for bona fide research or other lawful purposes provided the minor is monitored directly by an authorized staff member.

7. Monitoring. Use of the technology resources, including but not limited to internet sites visited and e-mail transmitted or received, is subject to monitoring by the administration and network administrators at any time to maintain the system and insure that users are using the system responsibly, without notice to the users. Users have no privacy rights or expectations of privacy with regard to use of the District’s computers or Internet system. All technology equipment shall be used under the supervision of the Superintendent and the Superintendent’s designees.
8. Sanctions. Violation of the policies and procedures concerning the use of the District technology resources may result in suspension or cancellation of the privilege to use the technology resources and disciplinary action, up to and including expulsion of students and termination of employees. Use that is unethical may be reported to the Commissioner of Education. Use that is unlawful may be reported to the law enforcement authorities. Users shall be responsible for damages caused and injuries sustained by improper or non-permitted use.
